Subject: RE: Joe - I just ran in to you on the deck of the Del Mar Plaza.

Joe, how about a cappuccino following a swim in the rough surf to help overcome your exhaustion?

Before joining the DeBeers-Anglo American Cartel full-time in 1980 on 47th-Wall Street I kept track of the commodity trades of DAAC controlled Joseph Seigal of Seigal Trading headquartered on La Salle Street in downtown, Chicago a "*hop jump and a skip*" from the Chicago Board of Trade.

You understand I didn't get off a boat

“just yesterday”, now sharing with you a not so Top Secret Israeli Military Intelligence report:

Immediately following next years summer Beijing Olympic Games, Al Quida will launch a series of attacks on the oil fields of Saudi Arabia, Kuwait and Qatar that in the next instant will paralyze the U.S. economy.

Let me know.

Take care,

Gary

Hi again Gary,

Thanks for the # correction. I can understand your distraction when it comes to “views”.. I have been at work since midnight (8am London time) so unfortunately I have to pass on your offer of meeting this morning. I'm a bit exhausted. Possibly next week would be better?

I'll dig further on the information you've provided me with.. sounds very interesting!

Take care,
Joe

You are right about a number of things including the telephone number, a 1 missing after the 1.

Spelling everything out can be boring but worse it wastes time and even though I have been mostly retired since my late twenties, now 50, I don't waste time not even to the point of missing the most extraordinary view from our studio home when typing.

I think you would benefit greatly from visiting with me this morning even though the “main attraction” is undoubtedly my very beautiful French-Canadian wife who is at our stone home in the Cleveland National Forest.

Motivating you even if you have other meetings today as well as having to execute trades in “real time” is the fact that I am rather well connected with DeBeers the Diamond syndicate having worked for them exclusively back in [1980](#) and the first thing I would suggest is that if you are not already familiar with the internet only book, The Diamond Invention written by Hollywood blockbuster author Edward Jay Epstein who writes editorials for the WSJ then read it or any part of it.

When clicking on the hyperlink above 1980 you will be taken to Chapter 6 titled, The Rules of the Game.

Call it a coincidence but I am currently “testing the mettle” of people such as yourself to manage my portfolio that does not include a single equity or bond but it is worth today well over US100 million, mostly art valued at fire-sale liquidation value and gold bearing again in mind that I haven't really been working since the early 1990s.

Hi Gary,

Good meeting you. Are you an art collector? You've picked a great place to live half the year, that's for sure. The plaza is a great place to meet people especially if you live in town.. I'm there often so I'm sure we'll meet up again if you spend any time there. I noticed your number below is missing a digit, so it might be difficult to contact you?

Back to work for me. Have a good weekend.

Joe

I live about half the year in Del Mar in a rented home on the cliffs and even though we are going through a rather major renovation I thought this might be a good time to meet and whatever noise distractions which right now is mostly coming a painter putting on the first coat of paint would be easily offset by both our extraordinary view as well as my wife and my rather excellent art collection.
