Subject: MINISTER WITHOUT PORT - al quaida - oil fields - us paralyzed

Earlier I fired off this 444 word email to the owners of Patagonia, a relatively high-end clothing manufacturer-retailer targeting "upwardly mobile".

Just prior I fired off the first of my responses this morning to a trader at Brandes Investment Partners who I met yesterday after a late lunch at II Fornaio, located on the deck of the Del Mar Plaza where New York based Ron Bellows of AIG and I would spend an afternoon, "shooting the breeze"; Joe Greco was sitting with cell phone fidgety talkative individuals oblivious, no different to most, of their immediate surroundings which of course you would expect to include members of the most highly deceptive of the deceptive of the world's intelligence institutes beginning with Israel's Mossad whose tactics didn't change despite the motto changing from "By way of deception we wage war" to "Where no counsel is, the people fall, but in the multitude of counselors there is safety" - Proverbs XI, 14.

Joe and I formally met at II Fornaio's outside bar, my Italian friend Davide

having the day-evening off.

As I paid my lunch bill Joe informed me that his firm currently manages some US\$100 billion, only deals with institutional investors or high net worth individuals.

No doubt that despite Joe and his colleagues immediately prior to running in to me had thought of themselves as being rather "worldly" while at the same time totally unfamiliar with the inextricably close ties between 47th Street and Wall Street in New York City, the DAAC's intelligence gathering and money laundering capital which has Joe, his colleagues and security compliance lawyers doing what exactly right now apart from thinking first of their own personal "nest eggs" followed by then fidgeting a little more, not sure whether the passing of time even to fart works for or against them, before then figuring it is more than the Feds who are fully "wired" and to begin addressing the rather important issue of "disclosure" where this coming weekend most likely wont serve as any distraction; on the contrary this is going to be the most heavy sweating weekend any of them could have imagined in their worst nightmare.

I promise to keep you informed of any and all future dialogues with both Brandes Investment Partners and Patagonia as well as any or all of their partners wanting to help "liven up things".

And of course if there is anything you would like to add on any subject please feel free to join in at any time including commenting on why when Leslie Stahl of CBS' 60 Minutes recently interviewed Alan Greenspan who thought nothing of telling the American public he derived great satisfaction in lying to them for some 17 odd years when Chairman of the DAAC's U.S. Federal Reserve, this DAAC stooge interviewer wearing a thick gold chain who felt perfectly okay to laugh along with Greenspan continuing to have fun with the easily distracted "tits and ass" American public, didn't ask whether Greenspan's wife, NBC White House correspondant Andrea Walters helped prepare him for this nonsense interview coming at a rather critical moment in the collapse of the DAAC House of Saud house of cards capital and financial markets.

Currently, your subconscious and conscious - reading time again Greenspan's classic 1966 essay, <u>GOLD AND ECONOMIC FREEDOM</u> which not surprisingly he quickly forgot when joining the DAAC forces - are converging like no other time since swimming

around in your mother's womb; the not so Top Secret Israeli Military Intelligence report worrying you to the point that you simply cannot sleep at night thinking, at the same time, thanks to me spelling it out so very clearly, how rather brilliant was <u>David Ben Gurion</u>, Israel's first Prime Minister not keeping it a secret that Israel was trading both weapons as well as military intelligence with the United States of America's South African Apartheid Regime aka the 3rd Reich's Southern Division that took root in South Africa sitting atop the world's richest mineral resources excluding black gold oil, beginning within a month of Israel being granted Statehood by the DAAC controlled United Nations who never expected Israel's forces made up of both DBG's Haganah and Menachem Begin's Irgun, the two Jewish underground movement fighting the British for a Jewish homeland in Palestine, to last more than a few hours when the DAAC Nazi's FINAL SOLUTION would have been a "fête à compli" and there would be less people like me to "make a difference".

Not to mention I didn't notice any reference when quickly perusing Brandes.com's website of any reference to this so very important and easy to understand explanation of the importance a smart guy like Greenspan attached to the role of gold in preserving both wealth and individual freedoms which Joe and his colleagues no doubt will eventually take up with their university professors.

Now if you are broke and/or do not have "blackened hands" you have to be not only "smiling from ear to ear" — no longer am I allowed to place up on The Internet this one most extraordinary beautiful photo I took of a naked French-Canadian with a body to die for - but invigorated like never before which is not to suggest unless you are in fact fit that you join me just prior to lunch for a swim in the so very attractive rough white-capped surf immediately in front of the cliff house.

Never before in the 200+ year history of the United States has it been so self-evident that all 3 Branches of the United States Government have been fully complicit in the most extraordinarily brutal, beyond belief repressive tyrannical 45 odd year rule of the Apartheid Regime, so very "openly" supported by corrupt beyond belief politically powerful American Charles Engelhard who was eventually assassinated by the Mossad at age 54 and laid to rest at St. Mary's Abby Church in Morris Town, two words, New Jersey on March 2nd 1971 with the DAAC's most senior U.S. representatives forced to attend the funeral proceedings, including Senator Ted Kennedy, former President Lyndon Johnson and Vice President Humphrey.

Not to mention yet again that some 5 odd months later the U.S. would officially go off the Gold Standard and Engelhard's estate under the command and control of my uncle David Gevisser who received some US\$6 million immediately following the church burial, began to go through the roof and nothing quite having as much a positive impact on Engelhard's estate as the decision a couple of years later by the DAAC controlled U.S. Congress to mandate that every new automobile sold in the U.S. contain in its catalytic converter a piece of platinum whose world supply was controlled by Engelhard with allegiance only to those who never made the DAAC the focus of their attention.

Pretty amazing that despite the deep schism between the Haganah and the Irgun, well reflected in Ben Gurion's decision in mid-June 1948 with Israel's War of Independence far from over, to have his most trusted field commander Yitzchak Rabin sink the <u>Altalena</u> in Tel-Aviv harbor with Menachem Begin on board, the State of Israel survived, not only the War of Independence but every effort to destroy "free market" advocates by the

world's DAAC controlled military, quite obviously not quite as expert in the art of deception as Israel's military intelligence who depend on the world's best to stay one step ahead.

You will recall it was not a pleasant sight on September 5th, 1997, the eve of the 25th anniversary of DAAC controlled PLO terrorists beginning to brutally murder 11 defenseless Israeli athletes at the 1972 MUNIch Olympic Games, to watch as Arab TV broadcasted the body parts including half a head of a member of Israel's Flotilla 13 following a very significant breakdown in intelligence, most likely between Israel's brutal Air Force who had got the settings wrong on a bomb being carried by one of the commandos that left 11 Flotilla members dead including the unit commander.

You will also recall that my mother and her immediate family, the Badash-Ashes had

," she says. "The book is only available from Kerry's lington shop, Amaze in Fore Street, or Exeter shop."

The book promotes Zena's own message r living - "whatever happens, keep smil-g". It contains 22 pieces, including four rt stories, a series of poems and para-

pyschology experiences, and the fascinat-ing feature. The Menopouse Woman Newls Younger Men.
Her first book, it is an inspiration from beginning to end, offering tips and advice, exploring ancient energy and the unknown.

One of the short stories - One Clean Boy, One of the short stories - One Clean Roy, a drama set in the apartheid years of South Africa - has excited much interest among movie makers in that country and in the US, and the script has been sent to Will Smith, Denzil Washington and Whitney Houston as potential leading actors.

"I hadn't thought of the story in terms of a film, but it could work very well," says Zense.

There is also a poem, Lament for Diana, written following the death of the Princeso of Wales. It was distributed throughout surrounding villages at that time, and the book mentions that 'in Wellington it was placed on a ruling, and many brought flowers and placed them beneath it.". The poem was to reach a worklyide

audience, too, and Zena recalls: "Tears streamed down people's faces as they read

The Winking Cat also contains two high ly poignant poems about the trials of motherhood - but it closes with an upbeat message with Zena's own cartoon, cap-tioned 'a night on the tiles, and all that, is better for you than the cat".

reading from page 3, LIFE STORY OF ZENA, "married Bernie Gevisser when she was 19 after only a few months in Durban" and just prior my mother had made mention that my father's family, "owned land in Haifa harbour and Zichron Yscov and she rapidly felt at home in Israel" which you would of course find a little "surprising" since my mother had spent the first 18 or so years of her life in England, Great Britain.

You would also be a fool to forget that in the sentence immediately prior my highly deceptive but very truthful mother wrote,

"From the earliest days of 1949 she visited Israel two and three times a year writing reports for different publications. Her paternal grandmother [Nechie Badash] had been an early resident of Tel Aviv only returning to England when Zena was born."

You must not also forget that in the early days of January 1949 the severely stretched Israeli Air Force were having to contend with Allied fighter pilots escorting Egyptian fighters in to battle against Israel's one squadron

who were now being commanded by Dr. Syd Cohen MD who during World Oil War II had no problem with my amazing fighter-bomber-pilot father Bernie Gevisser being his "wingman"

4th of some 71 odd miraculous missions dive-bombing the crap out of the DAAC Nazi bastards who had by December 4th, 1945 not only fully infiltrated British and American military intelligence but had shared such intelligence with the DAAC Nazis that of course provides the best explanation of why General Eisenhower kept in his shirt pocket a speech he planned to give had D-Day June 5th-6th 1944 been a "disaster" which of

course it was for those slaughtered on the beaches of Normandy; again when putting aside "morality" everything depends on whether your business model sees "peace as war" in which case you would be applauding and salivating at each drop of blood spilled in oil wars.

Subject: Life story of Zena

Literallly - "Born To Perform" Zena Gevisser was pulled out of her mother's womb in an emergency Caesararian - performed in the front bedroom of the family home in Blackpool, England. Zena weighed a whopping 13lbs and in no time at all was used as an advertisement for Cow & Gate baby foods. Six years younger than her brother, who at the time she was born had moved on to boarding school, She always felt an 'only child'. Not that this caused her any concern. From two years of age she was performing in pantomime and being paid for her services. Solo performances for charity were regular features of her young life with her - centre stage - with such monologues as "I was at a party when I was only two. A little girl fell off her chair and broke her wooden shoe. Everybody laughed but me - I did not laugh one single bit - you see 'cos I was the girl that fell" or "There was a little girl who had a little curl right in the middle of her forehead. When she was good she was very very good but when she was bad she was horrid!" From photo modeling with Cow & Gate she went on to ramps showing off the

latest in childrens' fashions. A leading film company wanted her in movies but her father would not agree always being afraid strangers would take control of her young life. With virtually no friends of her age she mixed freely with adults. In the main with her paternal grandmother

who born in Poland had come as an orphan from Poland where her whole immediate family had been wiped out in a pogrom. This same grandmother had her playing whist at whistdrives when she was eight. They won many prizes of food hampers and once a whole ten

shillings! Wise beyond her years as she listened to the problems of the world relayed in her presence and the solutions to many of these problems. Farly she had learned to overcome her inborn shyness. Trained by mainly her

mother in the dance routines for the stage she in turn became a teacher of jive, jitterbug,

and all the ballroom dances of the day, particularly to boys who sought her help. Her ever tolerant mother never even commented when the living room carpet became frayed and more or less threadbare! Right through the years of the Second World War she

danced and sang until one day, performing a Shirley Temple song (she had become known as "the Shirley Temple of the North of England") her voice broke in the middle

of "an old straw hat, a pair of overalls and a worn out pair of shoes... This traumatic event caused her to think seriously about her future and she decided to

forgo the limelight of theatre and become a writer. It was 1943 and Zena was 12 years old. Winston Churchill's wife Clementine sent her a letter of thanks for collecting money

to build a new Royal Oak battleship destroyed in the war. Slowly she was learning the art of Advertising and Publicity. A finalist in a national beauty contest she was asked to join the wellknown model school of Lucy Clayton and at the same time trained with the film star Vivienne Leigh's mother as a Beautician. Ever eager to learn new things she joined her parents in their new wartime hobby - training in Swedish massage. With all this it was not surprising that she had no time for playing with dolls or other childhood pursuits. The war was over and her dreams of being a foreign correspondent and dropping behind enemy lines in Europe came to an abrupt end. Life was a ball. Dancing

 Partying – Summer days at the poolside – Attending live theatre at least once a week and much more. Suddenly in 1947 it came, abruptly, to an end. Her father

 had decided to emigrate to South Africa!!! Landing in Durban the family went to stay at the Minora Hotel. As she went upstairs to leave her suitease in her bedroom her mother walked into the lounge where a fashion show was being

Page 2. Zena Gevisser life story.

organised. Ever Zena's publicity agent, her mother, seeing the struggle that was going on - informed them that although her daughter was only 18 she had a lifetime experience in stage and mannequin work. By the time Zena came downstairs she had a job which turned into a lifetime of endeavour. The success of that fashion show in aid of Israel brought her into the Durban public eye and stores and manufacturers clamoured for Zena's assistance. In Smith Street, sharing rooms with a beautician, she started The Durban School for Mannequins - An Academy of Deportment. Later it became simply Durban Charm School. Initially she advertised for girls to become models. However, she soon learned that a mere five percent of any who came to be interviewed would ever be good enough to be professional. The training brought new found confidence and selfesteem to all. Mainly her pupils were teenagers and adults. Along with her Public Relations work with known Advertising Agencies (who at that time had not entered the field of Public Relations) she realised that Shyness was the biggest handicap to success in all fields and started to promote a programme for Adults. Her lectures were sought all over South Africa - starting with Women's Institutes and being sought after by business corporations where she often found herself lecturing men, particularly, in the Sales force. Her favourite opening to the opposite sex was the joke about a religious man who went to heaven. At the Pearly Gates they asked him what his wish was seeing that he had been such a righteous man on earth. He thought about this and then said he would like to see his old teacher who had died some years before. They told him to sit around and wait. Eventually, he saw coming towards him in the distance his old teacher. He looked the same as he remembered him.

Running to greet his longlost teacher he stopped in his tracks. The teacher was holding the hand of a young girl who was stark naked. "Oh" said the student "I see you have been rewarded for your good life on earth". The teacher replied "No, my son, she is not my reward – I am her punishment!". Zena then would say to the audience of salesmen...."Are you my reward or am I your punishment". Which would break the ice for as perhaps even to-day but certainly in the 1940's, 50's, 60's even 70's a woman lecturing to men was not easily accepted.

Schools were opened in what was then Zambia, Northern and Southern Rhodesia, and the Belgian Congo. Swaziland, Windhoek, Pietermaritzburg, Cape Town, Johannesburg and many small towns often by former pupils who had stayed on in Zena's classes to train as teachers. Her curriculems on the importance of being a woman and overcoming shyness as well as how to enter the field of public relations and advertising were taught as far afield as Germany, Switzerland and Hong Kong. It would be many years before Universities and Colleges taught degree courses in Journalism and Public

Relations even worldwide nevermind in Southern Africa.

Raising funds for charity became the order of the day with as many as 52 charities a year. Some for small events and others for national occasions. Her advice was sought by politicians and businesse executives for their wives and for themselves. The first State

President and his wife received suggestions for the dress and organization of the first "At Home" in the home of the State President in Durban. Eventually, Zena found herself

Page 3. Zena Gevisser Life Story

lecturing to corporate lawyers and public figures in America and elsewhere overseas on the benefits of investment in South Africa. Where ever she went she was well received. The ignorance of academics and others in fields of power on the subject of South Africa astounded her. In the school holidays she would take her small children (all four eventually) on her overseas trips. Once landing in a capital city in Europe she was met in by a leading civil servant of that country. Handing over her blonde, blue-eyed daughter to this lady she was astounded to be told by her "it is amazing how white your child is with a black father!!" Recovering from shock I asked her what she meant and why did she think my husband was black? Her reply was that I had told her over the phone that I was married to a South African and she therefore assumed he must be black! Within a week of her arrival in Durban not knowing what to do with herself as training models took up very little of her time, initially, she took a job with a lawyer, Rowley Arenstein. His wife Jackie ran a Communist newspaper The Daily Worker and Zena found herself involved in all kinds of politics as she typed out the different stories and eventually met Africans, Indians and Whites who were against the Apartheid Government. Ashwin Choudree introduced her to his Ghandi philosophy of non-violence and she became friendly with A.N.C. members and Indian organizations. She was devastated when sisters had to attend different classes of her teachings because some could pass for "Whites" whilst others were labeled "Coloured". This was all during her early years as a mother and when her children were born (all four before she was 29) she made up her mind that they must be trained to live outside of the country and the sadly the land of their birth. Albert Luthuli, (his cousin worked for her), Chief Buthelezi, Alan Paton had a dramatic effect on her. Brought up in an anglicized rather than religious Jewish home she found comfort amongst the Zionist families in Durban. Janie and Maurice Gevisser, Mary and Charles Lachman and dozens of other people opened their homes to her and it was a great learning process. Eventually Rabbi Avner Weiss arrived in Durban and taught her kashrut and the true meaning of Judiasm. His lectures to the children of the community "The Rabbi From Out Of Space" were important lessons for her. From the earliest days of 1949 she visited Israel two and three times a year writing reports for different publications. Her paternal grandmother had been an early resident of Tel Aviv only returning to England when Zena was born. The Gevissers (she married Bernie Gevisser when she was 19 after only a few months in Durban) owned land in Haifa harbour and Zichron Yaacov and she rapidly felt at home in Israel. Reporting on the many wars when Israel was attacked she was the first civilian in the captured area of the Sinai and in later years at her own expense twinned Durban with Eilat. In 1978 she left Durban eventually making her home in Netanya and England. Much of her work carried on in various places and although she gave up leturing she continued with her writings to this day. Her second husband Alan Zulman wellknown in the clothing industry having started in the early 50's - with a partner - a company which became South African Clothing Industries - collaborated in an Anthology that was published recently entitled "The Winking Cat". The first story of the title of the book which is about Afficient Energy offers Zena's philosophy which will overcome all of Life's problems. "Keep Smiling".

Not to mention the last time I spoke over the telephone with my mother was in late summer of 2004 which ended with my quick-computing mother asking, "Are you not concerned for your life?" when simply making her aware of the very carefully crafted Diamond Invention book containing so very important "gaps" of course familiar to those at the very top of the DAAC pyramid as well as the very deep underground Jewish Underground who have members buried deep in the Mossad keeping Israel's most deceptive intelligence institute the least DAAC infiltrated.

You might recall coming across this email of February 24th 2004 addressed to Mr. Jeffrey R. Krinsk of Finkelstein & Krinsk providing

Re: Comport v. Revlon. Inc., et al.

USDC SD New York - Civil Case No. 99CIV.10192

Dear Gary:

By separate cover I sent you a copy of the decision, which will be cited for many years.

We attempted but were unsuccessful in scanning a copy of a copy which is not unusual. Notwithstanding any resulting difficulty, please spare no effort in "stirring up the pot" to find individuals with evidence and have Revlon aware their misdeeds are under a microscope and will only increase in intensity!

Sincerely,

JRK/sea

Mr. JRK with a pretty good track to run on in preparing an epic class action complaint against the DAAC criminal enterprise Citigroup which has this not all that well known to the general public private corporation Citicorp Venture Corporation specializing in "management friendly" i.e. "shareholder hostile" takeovers, much like what occurred in 1969 to my immediate family's well-known South African public corporation, The Moshal Gevisser Group of Companies, traded on the Johannesburg Stock Exchange, within a couple of years of the Mossad "pulling the plug" on American Charles Engelhard who orchestrated not only the "shareholder hostile" takeover but assassination of my maternal grandfather Alef-Albert-Al Badash-Ash, although my highly secretive and extraordinarily well war-peace traveled mother, Zena Gevisser, consistently when pushed by me to explain why so little mention in the media about the richest man in the world dying at the rather young age of 54, would respond,

"Charles Engelhard died of an addiction to Coca Cola".

Not to mention that Ron Bellows was with me on the deck of the Del Mar Plaza on Tuesday, February 24th, 2004 when I was typing rather quickly the email on my wireless

laptop computer and just prior to hitting the send button at 6:25 PM suggested that I provide the 79 odd word summary that read:

Summary: Sumtime tomorrow I will provide u with a more organized "complaint" 4 u tu consider very seriously filing against Citicorp 4 in a nutshell, "stock manipulation" of epic proportions and remember unlike legal complaints geared toward a selective "bought and paid 4" audience, mine will appeal tu the masses (ad-infinitum), those fed up with organized religion, no different to organized political parties, no different to organized charities, no different to organized crime syndicates, who r just better organized, agree?

Seems silly giving anyone a break right now as increasingly each one of us has to focus on the "converging forces" that to begin with has Israeli Military Intelligence releasing through me who has no official or unofficial standing with any military or military intelligence gathering institution like the Mossad with the most brutally effective assassinations unit, a bone chilling, stock market paralyzing not exactly rosy scenario that all the world's intelligence services now perfectly understand leaves open the distinct possibility that Israel itself might decide not to wait for Al Quaida to begin launching a series of attacks on the oil fields of the U.S. controlled Saudi Arabia, Kuwait and Qatar that in the very next instant will paralyze the U.S. economy.

And the reality has of course not yet sunk in to each and every grossly underpaid United States service person that Israel now has a no-nonsense, anything but fanatical head of all Israel's military and intelligence gathering institutions including the Mossad, "calling the shots".

Although Ami Ayalon appears just like me - I have more hair - to have zero standing given his title, "Minister Without Portfolio" which says he has unquestionable and unlimited power which is not to suggest that even though I may have more scars on my body this highest decorated and most respected former Admiral of Israel's most brutal Navy who didn't get off a boat in Haifa harbor just yesterday before heading up Flotilla 13, Israel's Special Forces Maritime unit whose commandos while feeling superior than any other Special Forces unit in the water don't exactly feel inadequate when eventually walking on land or dropped in enemy lines which often times they have a role in drawing, that I know any more or less than Mr. Ayalon who to the best of my knowledge I have yet to meet officially or unofficially despite my many visits to Israel, none of which of course show up on any of the many South African and American passports.

Before getting in to the importance of you feeling the need to communicate what is going on in your private life no doubt impacted by your loss of income I suggest you examine closely the "mind game" going on between your subconscious and conscious mind not being able to rid itself of the connecting dots between the ingenious not so Top Secret Israeli Military Intelligence report, the Secret Society envisioned by DeBeers' founder, Cecil Rhodes, Rhodes Scholar Clinton's last minute Presidential Pardon of terrorist financier Marc "Trading with the enemy" Rich and the United States Government's extraordinary military support of the most anti-competition, racist, most brutally repressive South African Apartheid Regime immediately following World Oil War II that had just prior to its so orchestrated conclusion, and immediately after the atrocity of the Yalta Conference that began 2 days following the Soviet Red Army liberating the DAAC's Auschwitz death camp, DAAC President Roosevelt meeting on board a U.S. destroyer, DAAC House of Saud representative Ibn Saud.

By the way were you aware that the father of my pal <u>Mathew Margo</u>, a senior attorney for 60 Minutes, was directed by Ben Gurion following Israel's War of Independence to produce the "<u>blueprint</u>" for Israel's brutal Air Force?

Consequently, someone like Matthew would have little difficulty fully understanding the rather disjointed email I sent him on January 26th 2004 the day after I saw DAAC operative Leslie Stahl interviewing my other pal Roger W. Robinson who was part of an orchestrated effort by the DAAC to discredit President George W. Bush without either Ms. Stahl or RWR informing viewers that "our man Roger" during President Ronald W. Reagan's first administration, was a very senior member of the National Security Council doing the "bidding" of the DAAC who have never been able to come close to corrupting the Bush family as they have each and every other U.S. Administration since the DAAC set up their "Secret Society" following the death of Cecil Rhodes in 1902.

At least equal in importance, apart from my mother having 8 miscarriages and my wife and I now living in what is officially called Carriage House here on the bluffs of Del Mar, California, even the easiest distracted beginning to notice how very little interesting stuff there is in the news these days, would have been able to follow along the more than

<u>8</u>,000 word heavily broadcasted communiqué I began sending out on January 23rd of this year and ending on February 13th, my wife's birthday.

Israel's "shot across the bow" of the United States that the overwhelming majority of us Americans would consider to be so undeserving in light of all the aid beginning with military weaponry "gifted" to Israel to defend itself and of course America's DAAC special business interests leaves the U.S. powerless to respond "in kind" and why I would argue that certain U.S. Generals made comment that they could live with a nuclear armed Iran that was then followed by the U.S. announcing "war games" in preparation of a preemptive military strike against Iran.

This mind-boggling but rather easy to understand "conflicting" stuff not only occurring within the space between your ears results most of all in it not possible to argue we, the United States of America have the "high moral ground" leaving us increasingly with only our increasingly weakening military given how very transparent has been the 3 Branches of the U.S. Government's indefensible support of the tyrannical South African Apartheid Regime which again is worth repeating, Israel from its very beginning, made the entire world aware of its close military relationship with the National Nazi Socialist Government of South Africa without a single American politician beginning with the DAAC controlled, mostly Democrat, United States Congress, "batting an eyelid".

So you ask yourself how can any Jewish American vote Democrat?

The answer can be found by asking these hypocrites why they have never been vocal about the Hasidic-ultra orthodox Jewish-Black Hatters while being the backbone-cushion of the DAAC are, for the most part, very opposed to the State of Israel?

So you can explain what it means to be Jewish when Jewish people are only Jewish when it suits them no different to Roman Catholics, Protestants, Hindus, Buddhists, Greeks, Gypsies, Martians, Muslims and the such, everyone not speaking out against the DAAC who interfere with the light on the side of the DAAC and to them I say, "Good Luck!"

It is not "<u>rili</u>" [sic] important whether you were fired unless the person who terminated you is a monster like Dr. John BIG BEN Stewart MD et al in which case do not leave out any details.

With time on your hands perhaps you might consider lending a hand to John Dau in rounding up the 4,000 other *Lost Boys of the Sudan* who may not be as favored a slave as John and more willing to protest in the front of the UN headquarters in Manhattan, the DAAC's money laundering and intelligence gathering capital of the world.

Not to mention neither you nor I are in all likelihood sufficiently "equipped" to determine whether a John or a prostitute or a pimp are mostly or partly on the Mossad's payroll but you can surely question how very easy it would be for local law enforcement if they really wanted to find themselves out of a job, getting rid of each and every prostitute and pimp simply by contracting out to a more competent mercenary group such as Black Water, and when taking out just one pimp-drug pusher to leave such a bloody trail that leaves nothing to the imagination of the rest of the pimps-drugs pushers throughout the United States that it is not only non-official military organizations like Black Water who are so unaccountable, lacking the authority to "Court Marshal".

When last did you hear of an Israeli Special Forces unit sitting around anxiously waiting for a reply to a package containing body parts sent to an adversarial party?

If you have other distractions going on in your life such as finding for yourself the hottest date this coming Saterday night stop right here.

It is of course possible that you would very much like to flush out increasingly co-opted-corrupted John Dau and Co. but because you cannot afford the airfare along with the cost of a hotdog and why not try eating a banana in a hotdog bun when failing to find a hot date in the produce section, you might like to be a part of a round table discussion to be broadcast over the www.JUST3ANTS.com website and this Saterday would be perfectly okay with me.

In the meantime after reading through the 8916 word heavily broadcasted email I sent the night before last to my one American programmer Adam Tucker who later visited with me in Del Mar, California, remembering click first on the hyperlink above the number 16 taking you to page 16 of www.NEXTraterresTRIAL.com where by clicking PLAY you get to hear Matthew good band's most awesome song, Symbolist White Walls on their album Last of The Ghetto Astronauts first introduced to us by my wife's younger brother Jean Dion a member of the Royal Canadian Mounted Police and whose elder brother Andre is now retired from the RCMP and before leaving his senior post at the Canadian Embassy in Washington DC arranged with his U.S. Secret Service connections who we first met at a very well attended "Going Away Party" that included the most beautiful African American SS agent providing a private tour of the White House, read along the words.

I'm tired of blood and over priced bubble gum
Nobody moves and nobody gets hurt for very long
I'm wearing the same skin, I take it all on the chin
I still believe everything that I hear
And sometimes it's easy, sometimes it's easier
And sometimes it's all free
I have a psychic and she says I'm lonely
She says inside of me is turning out all wrong
So now I just sit here
And think of meaningless things to say

It's all right now Take the world and make it yours again!

would make the most perfect Mossad agent, an artist the perfect cover?

You would know that my Royal Mater-Mother's most famous model Penny Coelen who you see below

freezing her buns off on Durban South Africa's south beach shortly after she won the Miss World competition in 1958, beating a Canadian who my mother thought was more beautiful

as well as sexier

but not want the Miss World officials were looking for, "<u>is infamous for her incredible</u>

pistol shot".

To mention little of **MDG** not looking for a secret agent job, now selling art and doing a stellar job of "*mastering the look*"

that Sebastian displays in the photo below

contained in a Valencia, Spain newspaper article that in the background is Sebastian's almost life-size beautiful of beautiful portrait he was just starting work on of MDG and our so very sweet and soft super Italian Greyhound Pypeetoe that now has them both immortalized

To go out like Pypeetoe, his heart so extraordinarily filled with love, saying all his goodbyes to those who mattered most in his life, in the nick of time, we, should all be so fortunate.

Not to forget how Sebastian, his most beautiful wife Margarita and I cannot forget how when at Scripps Hospital in La Jolla one day Pypeetoe stole the hearts of everyone, most of all Margarita who may mourn his passing as much as Marie and me although we cannot forget Sebastian who captured so well his undivided loyalty to Marie.

More importantly to know versus believe you will return as Pypeetoe who truly lived "*the life of Riley*" right from the very start

to the most happy ending, spending 2 full days in the "*lap of luxury*" having his favorite woman in the world all to himself without having to compete with me who he would have followed to the end of the world and back, so long as we didn't leave Marie or Maggie behind, for the warm-cool spot in whatever bed we were in not just right up against but on top of Marie, better yet in between her most awesome French-Canadian skier legs, is a dream come true.

True there can never be a replacement in this lifetime for a superhuman soul such as our Fuzz-Face Pypeetoe

who spoke to Marie and me best when we would hug causing his uncluttered mind to go stark raving nuts, first the out-of-control barking followed by the cat-like-stance ready to pounce as he felt so very left out which of course lasted not more than a second or two before he would go quiet as a mouse, take over and consume all our unconditional love.

There is a reason for everything.
