**Subject:** Brazilian - How are you feeling?

Philippe – I doubt Adam L. Tucker shared with you the email address of his latest Brazilian lady friend, but I think if I asked him no more than 20 times he would have you communicate with her to have you simply ask her what she thinks if she were a member of the Mossad and found out that De Beers played a pivotal role in the financing-arming of Hitler's Nazi Germany that resulted in the brutal extermination of some 6 million of the best of the best Jewish people who along with their offspring are not around to add to the competitive pressures in all the market places including Funeral Directors who market all sorts of trinkets in addition to coffins, would she bother with starting her own currency printing press like the US mint or folks like the north Koreans who have the identical intaglio machines or simply have one of the Mossad's very hot looking "hookers" visit say with my buddy, Client #9 and find a way of communicating to Mr. Eliot Ness, no strike that, Mr. Eliot Spitzer Esq., former Attorney General of New York State and the immediate past Governor of New York State, that **not** only the Mossad but the entire Israel Defense Force must get without having to beg, let alone borrow and/or steal all the intelligence and weapon systems to defend itself against the De Beers-Anglo American Cartel and all its satellite states such as the United States of America's Government, as well as, of course, make up for the wholesale slaughter of some 6 million of my Jewish brothers and sisters, which I think you would agree Hollywood blockbuster author Edward Jay Epstein explains all very well in his most fascinating, non-fiction novel, The Diamond Invention, very specifically Chapter 9, DIAMONDS FOR HITLER which I am sure you have heard of before and if not click hyperlink below?

Everything is all about "money" specifically getting one's basic needs met and when there is the risk of that not happening the human condition is one of being easily willing to sell out one's next of kin which we first pick up from the animal kingdom; and something that our ingeniously smart and vengeful Superior Being also perfectly understands and the same with less intelligent people such as me and David Ben Gurion, the first head of the most brutal Mossad.

Bear in mind most who understand how the system works that affords people like Ron Bellows of AIG, Devin Standard and Paul Robinson and of course Dr. John K. Pollard Jr and never to forget The IT and his Cow, no matter the race, to live better than others they know are no less intelligent, fear such "enlightened" people who those suffering from "Poverty of thought" do in fact recognize that their competitors are in fact much harder as well as smarter workers given how people who "toil the soil" and/or make it their business to stay in "fighting fit" shape all their life are in fact SIGNIFICANTLY more efficient in every enterprise, sport as well as in breeding much more sensitive human beings than those who have allowed their formal education to interfere with their learning, and who will inevitably also come around to figuring out I know exactly what I am talking about as I continue to publish my forthcoming book, The History of Money Creation and Its Future!

Right now I am typing away in the garage-living space of our studio cliff house which The IT despite a Restraining Order placed on him by Judge Hendrix back on October 24<sup>th</sup>, 2002 decided to violate about a year or so ago, at least that is what his one son Jonathan blurted out one day and then followed up in writing so incriminating his Sperm Donor thinking at the time that he might be "saving his own neck" when some stuff apart from two paintings of Marie's went "missing" and remain so to this day.

I have my laptop placed on top of the back seat of Marie's red 250cc Piaggio-Vespa scooter just waiting for the battery of my Ducati ST4S to be fully charged given how the starter motor requires an inordinate amount of energy to turn over, something the folks in Bologna

which my dad and Syd Cohen bombed heavily during World Oil War II and where Ducati is headquartered never quite figured out with this most awesomely designed model which I understand they have stopped producing.

Truly, I doubt any one including our neighbors who live in a US\$6+ million house with one tenth our view let alone oil painting masterpieces would argue I happen to be right now living the greatest life imaginable in pretty much "fighting fit" physical and mental shape which the smartest people in the world not only don't take for granted but increasingly respect me for my decision most of all to remain peaceful; albeit I am in my underwear with my "chicken legs" fully exposed which had Terry, the female spouse neighbor looking at me askew just a moment ago as she went on a walk along the cliff, given how once again it is the most beautiful day in paradise.

I will be heading past Harvest Ranch in a few minutes on my way to drop off some food and other stuff at Adam L. Tucker and forgive me if I don't say hello by pressing on the Ducati ST4S' horn button although the bike is loud enough.

Later,

Gary

Ps - Would you know of a way to get me in to see the General of the US Marine base at Camp Pendleton and trust me I will not be focusing on getting the pilots of the Black Hawk helicopters to fly further away so as to not disturb the wildlife; not

to mention a squirrel with what looked like another dead squirrel in its mouth just stopped by and "stared me out"!
