Subject: PROFESSORS OF ECONOMICS - COLORED CHARTS- WRONG IN LIFE - food for thought!

First answer my straightforward questions; bearing in mind you have a fiduciary; i.e. legal responsibility; i.e. liability issue on your hands for failing to inform your students of material information affecting their livelihood, i.e. their ability to compete on a level playing field.

Second, not only is there a clear digitized record of our back and forth that will explain to a jury of our peers your blatant hypocrisy that affords you ill-gotten gains, but long before I attended my first Economic I course at Natal-Kwazulu University, I had my Royal Mater-Mother's over-the-top genius financial engineer, South African Chartered Accountant Gerald Hackner whose eldest son Sam is today head of Private Investments for Investec, based in Johannesburg, South Africa, go to the bother of explaining to me and his second son, Mark Oscar Hackner who like me was not exactly stupid that Professors of Economics are unique amongst the entire group of corrupt academia, the new corrupt church, given how besides for expert at mumbling gibberish you are afforded the tools by the ruling "money-gun-power" elite to explain aided by elaborate colored charts where precisely you all went wrong in life, resulting in the need to seek the sanctuary of academia in order to make a living co-opting-corrupting the next generation of imbeciles foolish enough to listen to single word coming out of the mouths of you succulent-free loaders; no different to the egomaniac politicians who like the most important of you all are forced to attend the funerals of your major benefactors.

And of course none quite like American Charles Engelhard an "open supporters" of the South African Apartheid Regime and close family friend of the Kennedy clan and Johnson family, and why of course the Mossad did not need to be all that insistent that Senator Ted Kennedy, former President Lyndon Johnson and Vice President Humphrey attend the church funeral of Engelhard, the "control person" of the De Beers-Anglo American Cartel, the mafia of mafia, the price fixers of price fixers, the special interest of special interest group, the terrorist of terrorist financing organization held on March 2nd, 1971 at St. Mary's Abby Church, Morris Town, two words, New Jersey, some 20 months prior to my first meeting with David Ben Gurion, the first head of the Mossad on November 1st, 1972, some 57 odd days following De Beers sponsored PLO terrorists beginning to brutally murder 11 defenseless Israeli athletes at the Munich Olympics; and some 7 odd years before I left South Africa on March 16th, 1978 armed with a most important "insurance policy" which my Royal Mater-Mother, Zena Ash, from the House of Badash, Gevisser handed to me just as I was about to board the plane at Durban, South Africa's Louis Botha Airport, destination Chicago, Illinois which featured prominently

in the rigged Presidential elections of 1960; such an "insurance policy" coming in the form of "Letter of Introduction" addressed to the DAAC's one group of lawyers on Bush Street, San Francisco, signed by my father's first cousin, David Gevisser, the American head of the DAAC.

Not to mention, my uncle Dave not simply taking over from Mossad assassinated Charles Engelhard on March 2nd, 1971 but as his "sign on bonus" received the cool payment of US\$6 million that within 5 odd months as the DAAC controlled 3 Branches of the United States Government went officially off the Gold Standard on August 15th, 1971, would make my uncle Dave and Co. beyond a shadow of a doubt not only the cash richest but mineral richest people on the planet.

To mention little of how very little money means in times of war and why we have the expression "in war money is no object"; you now should have no difficulty despite the enormous extent to which your formal education has interfered with your learning to understand why the Mossad never pay for either their weapon systems or their own intelligence unless the "game plan" is to "set up" someone like Hollywood blockbuster producer-director Steven Spielberg who as you delve into his 2005 epic movie MUNIch including examining ever so carefully his 5 minute introduction that he gave after the movie had already finished being edited you come away with realizing that he wanted to do such a convoluted but so incriminating introduction as much as he wanted a Mossad bullet fired into the back of his head; rather ingenious how the Mossad when combined with members of the deep underground Jewish Underground who help keep the Mossad "honest" arranged for Spielberg to have access to the highest levels of the Mossad which allowed him to get so many things perfectly right including the Mossad's use of highly lethal but prostitute looking women but at the same time the entire theme of this rather confusing movie about a very non-confusing real life incident was all about the Mossad spending millions of dollars to track down and kill members of the Black September terrorist group who had masterminded the Munich massacres.

To mention in passing Spielberg's use of guns that were not around at the time one can of course most easily forgive given how only an imbecile would argue that Spielberg needs to also make a living selling movie tickets but somehow this very heavily invested in US-De Beers Treasury Bills Hollywood elitist won't touch with a 100 foot pole The Diamond Invention first written in 1978 when I arrived in the United States, by Hollywood blockbuster author Edward Jay Epstein, not lost for a moment on those of us first of easily pleased; i.e. easily distracted.

Yes, can you imagine for a single moment a member of the Kidon distracted by a "honey flower" in a hotel lounge?

No, you haven't forgotten because I am also reminding you that SPIelberg got it perfectly right that some of the most trusted members of the Mossad and in particular the very deep Jewish Underground who haven't forgotten their roots; i.e. the Wandering Jews, are Roman Catholics, particularly those nestled in the Pyrenees between France and Spain.

Yes, you should appreciate the importance the dictator General Franco of Spain played in keeping up the hopes of the many Jewish and non-Jewish resistance fighters when so boldly confronting Hitler who of course the smartest independent thinkers in the world coming from all the great religions understood perfectly well was a stooge of big corrupt business and none bigger and more easily indentified than the De Beers-Anglo American Cartel who make a total mockery of the basic principles of "demand and supply" so essential to free and fair markets.

No, you also haven't forgotten that Hitler said, "The great masses will more easily fall victim to a big lie than a small lie" and the fact that the United States of America shouts the loudest about free markets and democracy doesn't make it so.

You have exactly 60 seconds to respond in kind before I ask Adam L. Tucker very nicely to add your name to the "\$ hit list" [sic].

Moreover, the fact that you chose to now "break" our earlier "back and forth" emails is not being "overlooked"; not to mention I have taken the liberty of inserting them below in the color purple and should you have a preference for another color please don't hesitate to also let me know; to mention little of the couple of edits in green I have now made to the heavily broadcasted "**food for thought**" communiqué; to mention in passing forgive me for taking this opportunity to ask Adam L. Tucker if he is hungry and would like to join me for a bite over at the Del Mar Plaza and for him to bring his cell phone along so that I can use to follow up with FBI Special Agent Curran Thomerson.

Ps – Of course you can always redeem yourself by arranging a debate between myself and you backed up by the entire faculty of the economics department on the Berkeley University campus; the sooner the better for the youth who are our future!

Ps I – I just noticed that Bill Kovarik is online:

Subject: Re: FOOD FOR THOUGHT! - Did you receive the email i sent Maria Gonzales?

Would you please take my name off this list?

Bill Kovarik

Ps II – If you also have the time, and it doesn't have to be right now, please provide me with your suggested edits in order to make what I have written perfectly understandable to an adult with no more than an elementary school education.

Raj,

What exactly do you teach/research that would have you make such a wrong conclusion, again in my opinion?

Thanks,

Gary

Gary,

Although it's interesting, I think your topic of monetary economics is quite far from what I teach/research. Best of luck with your book.

I'd appreciate it if you could take me off the e-mail list.

Thanks,
Raj

Raz hello,

I will also keep it short.

I assume you are of Indian decent and would understand why the British laughed at Ghandi when he suggested that "non-whites" including Indians in my home country of South Africa burn their "pass books" while failing to draw their attention to De Beers who make a mockery of all basic economics given their extraordinary price fixing capabilities.

I now welcome you to invite me to either give a lecture to your class and/or engage me in a meaningful debate on the subject matter "money creation" and its future; not to mention the title of my forthcoming book, The History of Money Creation and Its Future!

Gary

Ps - ask me any question anything about just3ants.com including that ingenious Israeli Military Intelligence report.

Hi Gary,

I teach public economics, but am on leave this year.

Sorry for the short e-mail earlier -- I am buried in e-mail everyday and as you know it's hard to keep up!

Thanks for taking me off your list for now...

Best,
Raj
