**Subject:** Israelis Almost Took Out Tony Blair's Jet - Indeed I am impressed - From the earliest days of 1949 she [Zena] visited Israel two and three times a year, writing reports for different publications.

Mr. Brooks, earlier, before speaking last with my beautiful mind, beautiful face, most beyond belief beautifully bodied French-Canadian wife who I haven't seen in 24 hours, I posted up on ABCNEWS.com the following two, almost identical posts, but different enough to make a difference, since I was having difficulty recalling my different user names and passwords.

**Why doesn't Tony Blair ask Israel where the Mossad get its much "needed funds" given how the Mossad never pay for either their weapon systems or their own intelligence unless it is part of a "set up". This is all explained better at [www.just3ants.com](http://www.just3ants.com).**

**Gary S. Gevisser 5:43 PM [Eastern Standard Time]**

**What prevents Tony Blair from asking the Mossad, Israel's intelligence institute why it hasn't for a quite a while now needed "much-needed funds" to pay for its weapons systems as well as its "own" intelligence. See [www.just3ants.com](http://www.just3ants.com) for more details or simply email me [gevisser@sbcglobal.net](mailto:gevisser@sbcglobal.net)  
Gary S. Gevisser 5:45 PM [EST]**

The next post was the following, and no, it didn't belong to me.

**OOPS!!!!  
dr\_dredd01 5:49 PM [EST]**

This not so little incident that received the headline, [Israelis Almost Took Out Tony Blair's Jet](#), followed by the subheadline,

**Israeli Air Force Minutes Away From Shooting Down Tony Blair's Private Jet**, made mention that this former crooked lawyer Prime Minister of Great Britain was on his way from Egypt that sits on the north eastern edge of the African Continent to Israel, for the special economic conference in Bethlehem which, again according to ABC NEWS, where most Americans not having heard about just3ants.com still get their news,

"has been convened to raise much-needed funds for the Palestinian Authority, and to stimulate an economic recovery in the hope that it will encourage Palestinians to support the current U.S.-backed peace process with Israel."

Allow me to first add that there has never been a Prime Minister of Great Britain or President of the United States that has ever commented on the diabolically cruel and treacherous arms embargo placed on the State of Israel by the two superpowers, both prior to and immediately following the Holocaust of World War II that wiped out the very best of the best Jewish people, along with most, if not all of the most powerful independent thinking Gentiles at the time, the exceptions being no more than two handfuls of people, made up of both Jewish people and Gentiles, who didn't feel the need to write a book, or write a letter or even talk to a single reporter since it was quite obvious to people like Field Marshall Jan Smuts, the greatest friend the Jewish people have ever had since the time of

Jesus Christ, and David Ben Gurion who were communicating with each other through their most trusted emissaries going back and forth between London, England and Tel-Aviv, Israel where the Mossad had its headquarters, that in fact it was the De Beers Nazis who won World Oil War I and II.

Allow me to further add that Mr. Blair who, we should all now view from this moment going forward until such time as we meet up naked once again with our Maker, even when wearing a suit and tie to be nothing more than an "Emperor Without Clothes", being led by his equally naked wife walking around a pool area, totally naked from the waist down and from the waste up just a blank rectangle spot like the one below

showing the body of the most beautiful woman I have ever seen clothed or in the flesh, has yet to comment either on the Pope's culpability in the wholesale slaughter of 6 million of my Jewish brothers and sisters all the while making such a big deal about revealing one's naked body other than those who are fatsos simply don't want to show off what fricken gluttons they are, or for that matter the implications of De Beers, who back all sides to every conflict having infiltrated the highest levels of British Intelligence well prior to the outbreak of World Oil War II, which does more than bring a frown to the faces of people like my amazing fighter-bomber-pilot father who during his 71 odd miraculous missions dive-bombing the

crap out of the De Beers Nazi bastards would have also killed innocent civilian hostages as well as "friendly" ground troops.

Right now you have surely stopped thinking about how you are going to explain to all those receiving a copy of this communication, some 100,000 in the blind copied section, why you weren't able to figure out on your own why you, someone who you considered "intelligent", hadn't thought of such a very obvious "terrorist plot" yourself which is rather obvious; i.e. first nature, to all of us "intelligence trained", instead thinking of explaining how you had an emergency and had to go offline, for how long you think?

Allowing you to transition, with great difficulty thinking how much better it is to see a photo of the most beautiful naked female body that can you believe it is today, some 10 years after that photo was taken, even better as hard as it is to believe and were my F-C wife to retain a divorce lawyer you would agree to support me in my right to a fair trial to have the court order her to pose nude again on that very same rock on Black Beach, La Jolla, California, below are two transcripts of two phone conversations involving FBI Special Agent Curran Thomerson and a colleague of mine, Adam L. Tucker who was first visited at his home in Solana Beach by Mr. Thomerson who simply left his calling card:

Adam Tucker Incase I have more information to share with you.

**Curran Thomerson Do you think you have any more information to share?**

Adam Tucker No, everything I know is on the website. We are completely transparent.

**Curran Thomerson Ok, Adam, thank you for your help...**

Adam Tucker I would like to discuss the money laundering in my family; they are very dangerous.

**Curran Thomerson Ok, tell what you know.**

Adam Tucker In November of last year I emailed my family and I believe I CCed the sheriff and

FBI, and in the email I explained how my uncle laundered money through his business. Within a day or two after, I got an email from my ex-wife telling me that my family was trying to get me arrested. I found out that my mother had contacted my ex-wife whom she never spoke with and later my mom emailed me to incriminate me by asking me what I wanted. In the late 1980's my uncle and his partner had a silent South African partner that provided them with \$2 million dollars in seed capital to start their plastic bag company.

**Curran Thomerson** **So this is your uncle.**

Adam Tucker Yes

**Curran Thomerson** **So, wait, that was a lot of information can you run that by me once again.**

Adam Tucker Yes, I was a kid at the time and all I knew of it were trips that were made to South Africa and the souvenirs that they brought back which made it seem like a vacation. When I was older I found out that my uncle's partner Albert Halimi contacted family members in Iran that put them in contact with a man in South African that wanted to get money out of the country. And most likely used diamonds. My uncle told me that a suitcase arrived one day with \$2 million dollars and there was no official contract so if he wanted to, he could have screwed the guy. But I know they paid him back and then some.

**Curran Thomerson** **Can you spell their names?**

Adam Tucker Pete Grande and Albert Halimi

**Curran Thomerson** **So he contacted people in Iran?**

Adam Tucker Yes, he has family in Iran.

**Curran Thomerson** **Do you know the name of the South African man?**

Adam Tucker No.

**Curran Thomerson** **So this guy wanted to get money out of South Africa?**

Adam Tucker Yes. And my uncle and his partner needed the start up money since both of them had already mortgaged their properties and still needed more money. Can I get your email address?

**Curran Thomerson** **Well, thank you for your help. We will contact you if have any further questions.**

Adam Tucker You are welcome. Thank you.

**Call placed to Curran April 29, 2008 4:12pm PST duration 3 minutes 23 seconds**

Adam Tucker Curran, hi this is Adam again.

**Curran Thomerson** **Oh, hey, what's up?**

Adam Tucker I wanted to find out if Gary was being investigated for indictment

**Curran Thomerson** **Oh, I can't tell that information. If I did tell you that I would break just about every law in the book.**

Adam Tucker What about my family? You didn't seem that interested in hearing about them.

**Curran Thomerson** **It's not that I am not interested; it just falls under the jurisdiction of another office. I will forward the information to them.**

Adam Tucker What about Robert Hansen?

**Curran Thomerson** **What about Robert Hansen?**

Adam Tucker He got off because he got paid in diamonds.

**Curran Thomerson** **What do you mean conflict diamonds?**

Adam Tucker Not necessarily conflict diamonds, just diamond currency. They are light weight, unregulated, untraceable, and fit nicely in diplomatic pouches. That's why Jonathan Pollard got caught; he didn't get paid in diamonds.

<b>Curran Thomerson</b>	<b>Yeah that is how they got him. How did you know that Robert Hansen was paid in diamonds?</b>
Adam Tucker	I read it somewhere.
<b>Curran Thomerson</b>	<b>Ok, well, I'll let you know if I need any more information from you.</b>
Adam Tucker	Ok, thank you. Bye.

There is a reason Mr. Ron Bellows, a senior Risk Management specialist for AIG [American International Group] wrote me, "Indeed I am impressed" on July 27<sup>th</sup>, 2004, some 106 days before I broke on November 11<sup>th</sup>, my 24-year "deafening silence" with the De Beers Anglo American Cartel, having most carefully "lined up my ducks"

Not to mention I also have on video this duck photo below

my French-Canadian wife took in China during our 24 day "fact finding mission" in the summer of 2006 when you will recall some 100 Hezbollah Special Op Commandos, broken in to groups of approximately 10, while holding off the brutal Israel Army, simply text messaging one another, fired the most unsophisticated missiles in to Israel, causing the evacuation of Haifa where my paternal grandfather, Israel Issy Gevisser once owned priceless beach-harbor properties, first purchased in the 1920s, before being handed over to the Mossad around the time my highly secretive, "born to perform" Royal Mater-Mother when still age 19, and less than 3 months married to my "big catch" Jewish Fighter-Bomber-Pilot father,

***"From the earliest days of 1949 she [Zena] visited Israel two and three times a years, writing reports for different publications".***

<http://www.just3ants.com/FamilyTrees/GevisserBadash/zena/impwom/default.shtml>

And Haifa you would also know houses the 3<sup>rd</sup> largest population in all Israel, some 300,000 residents, approximately 7% of Israel's entire population, the equivalent of some 21 million of US Americans having to forcibly evacuate.

Not to mention you also understand perfectly well that such Special Op Commandos who today mimic very brilliantly the best of the best of Israeli Special Forces

commandos, fading in and out of the land-seascape, would not have needed to use even a plastic fork, let alone cumbersome box cutters to take control of a passenger airline, simply in a split second break the neck of steward and/or stewardess, dump their body in the first class toilet, and in single file without any commotion have each of the passengers come and look for themselves.

When I mean business, I mean business-personal.

By now you have easily begun to get your arms around The Diamond Invention, a non-fiction most fascinating novel describing both the extraordinary arrogance and devious nature of the DAAC, the mafia of mafia; starting with Chapter 9, DIAMONDS FOR HITLER, although you would know, in part because I am telling you so, to pay most attention to the subheading, THE SECRET WAR REPORT OF THE OSS which meant that before it became a fricken "report" such information was known to at least one person and that person writing the report knew that it was just a matter of time before the enemy; i.e. De Beers would get their hands on that same fricken report which they had authorized.

Now when you hear screaming protestors barging into hearings where there are TV crews and lots of cameras, you cannot be certain whether in fact they are simply acting demented.

You have also heard people like former US Justice Department prosecutor, John Loftus Esq. talk about how certain Jewish people like the filthy rich French Rothschilds "lost everything" in the Holocaust but Mr. Loftus who is not Jewish, refuses to examine the pivotal role played by the Rothschilds in the Diamond Invention, so very well documented by the De Beers controlled US Justice Department and released to the public under the Freedom of Information Act that makes a total mockery of each and every law on the books beginning with the utterly nonsense Freedom of Information Act, followed closely behind by our so "sacrosanct" Anti-Trust/Anti-Price Fixing/Anti-Competition/Anti-Monopolies laws.

And nor have the Rothschilds and all their succulents such as Jewish South African Dr. Jonathan "Trouble Bubble" Beare seen fit to comment about this so very easy to understand internet only novel which was written for the single purpose of letting all the world's "smart money" people know that if they were to dare even begin to take on this special interest of special interest group in a "meaningful" manner it would mean the end of their "gravy train" and worse, in short order they and their family members such as my close friend Derrick Beare who has never felt what it means to go hungry or thirsty, would find themselves in the "poor house" without a friend in sight.

Remember I have had a lot of time to think a number of important things through, going back well before I walked into the office of Stephen Cohen of Codiam Inc. in early spring of 1980 for the very first time, never had anything close to a "job interview" apart from first meeting in San Francisco with a group of De Beers' lawyers who weren't going to argue with a "letter of introduction" [that had my mother's handprint all over it](#)

while signed by my uncle David Gevisser, the American figurehead of the De Beers-Anglo American Cartel following my uncle Dave becoming in March 1971 the executor of the estate of American Charles Engelhard, the "control person" of the DAAC, and this very senior price fixing official of the DAAC as well as his partner at the time, Alan Lipworth, a very close relation of my uncle David Gevisser who again was the executor of the estate of the virulent anti-Semitic American Charles Engelhard, asked me whether I wanted my Codiam paycheck paid by check or in "latkes".

Cash armored trucks increasingly look funny to you?

Less funny when you start putting together for yourself all the evidence of wrongdoing by the US Government that looks increasingly like it should be the target of a RICO investigation although Article II of the Constitution will suffice, that has your mind turning just very quickly to why the US Government failed to inform the Israeli Government that its most advanced spy ship, the USS Liberty,

would be sent in "harms way" resulting in the Israel Defense Force on June 8<sup>th</sup>, 1967, two days into the 6 Day Arab-Israeli War, deciding to unleash the most extraordinary attack on a totally defenseless vessel which was Israel's way of simply saying without sending any letters or having their Ambassadors raise their voices, "DON'T FUCK WITH THE JEWS"!

Some 11 odd years prior to crooked Jewish person Stephen Cohen making "no bones" about the need for me to pass the "standard operating procedure" ritual that has been going on at the highest levels of DAAC socio economic pyramid, from the moment individuals began to be taxed on their earnings, and simply take the cash which I don't once recall ever doing which might have been my first "re RE" [sic], the DAAC had forcibly taken over my father and his father's highly visible international trading conglomerate, the public corporation, Moshal Gevisser Group of Companies, and from 1969 my very brilliant business person and most honest, most proud, most humble father with the most incredibly good name, battled to make a living; moreover, was shunned by the filthy rich Durban South African Jewish community who derived great satisfaction from seeing this war hero who married the "fairest lady in the land", go from one job to the next, all "courtesy" of the "good graces" of his so ugly, so fricken stupid first cousin David Gevisser; bearing in mind once getting one's arms around the situation, it was rather funny to see these so non-athletic "fat cats" getting fatter and fatter, getting it less and less from either fat as pigs or skinny as rake wives who were all "getting it" on the side, all of these scoundrels thinking they were going to get away with their misdeeds.

Yes, the stupid people are the ones who thought they were going to get away with their nonsense.

However, to tell my father the truth, the whole truth and nothing but the truth would have jeopardized the entire "game plan".

In addition to of course G-d/God keeping his spirits high that kept his proud head so very high, knowing that there was absolutely nothing he could to change the course of history apart from blowing his head off, was the constant physical presence of the Salot family, devout Indian Muslims who like most "non-white" business people didn't need to read newspaper articles explaining what had happened, and the need for them all to go so very quiet, all knowing that my father wasn't exactly married to an imbecile who would know when the time was right to have me place, just once, in the South African Sunday Times, some 2 decades later, in 1989, not long after my first trip to the mainland of China in the spring of 1989, this most carefully worded advertisement.

A Name From Here, You Can Trust Over There

Right this very moment, the time on my computer clock says, 4:29 PM PST, all eyes including Israeli Military Intelligence as well as the most senior members of the Mossad and of course the very deep underground Jewish Underground, who following the Susannah Operation debacle of the summer of 1954, have helped keep the highly compartmentalized Israeli foreign intelligence institute "honest", are glued to my now easy to understand explanation of the extraordinarily high cost of transporting oil not just from the Middle East, that the oil company executives don't talk about because they are not paying for the United States military bases on 130 of the 190 countries that lets the remaining 60 or so countries know not to mess with Uncle Sam.

Back to Mr. Bellows' most accurate and highly revealing email.

**Subject:**

indeed i am impressed - you took a very little and made into a very well said statement about the true nature - well done - glad I could help - rock on

Below is a photo of my friend Ron "smelling the roses" atop the bluffs of Del Mar.

More than 7 odd years had gone by since Mr. Bellows and I first met in the first week of 1997 after I had spent several days visiting with Mr. Fred DeLuca, founder of the heavily corrupt [Subway](#) Franchising operation, at the home of DeLuca's one friend which he had repossessed, in Fort Lauderdale, Florida.

You already know the connecting dots between Mr. DeLuca, Mr. Rezco and Senator Obama and if not just continue with your Google searches where you find many of my most detailed and highly personal communications which of course make perfect sense to anyone with just the most basic common sense.

I carefully took my time not to drop the name "Fred DeLuca" when Mr. Bellows and I first met after he had been instructed by Mr. Bill Frye, AIG's head of Acquisitions and Mergers to come "kick the tires" of a medical device corporation where I was the Chief Executive Officer that eventually got public international attention, following a 20 minute or so phone call I had on or around December 11<sup>th</sup>, 1996 with Maurice "Hank" Greenberg, AIG's CEO and Chairman of the Board of this world's largest financial institution that includes an intelligence network that makes the CIA look rather silly and why Mr. Greenberg once turned down the offer of being "demoted" to become the head of the United States of America's Central Intelligence Agency; not to mention Mr. Greenberg and I had never communicated prior, which also didn't prevent Mr. Greenberg after just a couple of minutes of listening very carefully to what I had to say which didn't include dropping anyone's name apart from my own, from bringing Mr. Tizzio, the President of AIG on to the line, and although Mr. Tizzio did most of the speaking, he knew as did I, that for Mr. Greenberg to be so very quick to talk to a total stranger, let alone allow Mr. Tizzio know from the start how little he knew about me but enough to know to take me very seriously, causing Mr. Tizzio to understand perfectly clearly that he should not waste his but more so my time in "small talk" and equally important not to "test my patience" and have Mr. Frye jump on this once in a lifetime opportunity.

It is only in very recent times that Mr. Bellows has become aware of the measures I had to take in order to protect myself and those I cared about when DeLuca and I first met, again just several days before I became Mr. DeLuca's "guest of honor" on his motor launch on New Year's Day, January 1<sup>st</sup>, 1997 when Mr. DeLuca made a point while serving Subway sandwiches, pressed turkey and the such to have his best looking female friends cozy up to me as we all breezed up and down Florida's intercoastal making it a little difficult but not impossible for Israeli friends of mine to keep very careful track of Mr. Deluca's many goons who were on board but had never just like the US military gone up against a first rate military such as the Israel Defense Force who would instantly "stand down" to China given how well China's Special Forces have been trained by the very best of the best of Israel's Commanding Officers and trust me when I say, "I would know".

Mr. Bellows is when working, a no nonsense business person who can analyze pretty much any business quicker than anyone else I know who makes a living off Wall Street which does not mean he is as close to being as competent as me in being able to access "risk" given how much of a "competitive advantage" I have over even someone as well-schooled and experienced as Mr. Bellows who understands the numbers side of this war in Iraq and Afghanistan most likely better than Mr. Tizzio, Mr. Frye and Hank Greenberg all combined.

The United States Congress while putting on quite the Hollywood show when taking on oil company executives know better than to discuss whether such corporations are paying their "fair share" for making certain that the oil taken out of the ground in say Saudi Arabia, Qatar and Kuwait and then placed in a movable oil field such as an oil supertanker does not get hit by one of those thousands of the most unsophisticated missiles that shut down Haifa during the 6 week Hezbollah summer war where the totally non-Jewish Israeli Druze Special Forces performed "admirably", taking not a single casualty.

The United States Congress has also yet to call for hearings in to the role played by Hasidic-ultra orthodox Jewish-Black Hatters who overwhelmingly make their living from The Diamond Invention while again overwhelmingly supporting Israel's enemies; facts of life, thanks to crooks like yourself, not known to the average Joe Blow "let me have my truck, my RV, my off-road motor vehicles to drive like crazy on weekends when not getting drunk so that I multiple excuses to avoid screwing my fatso wife, girlfriend blah, blah" [sic], and of course their partners feel the same way otherwise they wouldn't eat themselves to a premature death.

There is a reason why divorce is rampant in all western societies apart from at the very top of the DAAC socio economic ladder where affairs are simply "financially tolerated".

Feel free to contact whoever you think is appropriate to "confirm" that ingenious Israeli Military Intelligence report's authenticity as well as "materiality" including Mr. Tucker and Mr. Jeffrey R. Krinsk of Finkelstein and Krinsk who also "[gets it](#)".

<http://www.nextterrestrial.com/pdf/probinson-areugettingit.pdf>

BTW, it is my humble but seasoned opinion you have a fiduciary responsibility to report all material news items even if it directly impacts your ongoing ability to make a living while feeding the clueless public with all sorts of distractions to prevent them from questioning who exactly apart from De Beers who after co-opting-corrupting elected and non-elected government officials then use what "REMAINS" of their unlimited supply of untraceable, lightweight and never inventoried diamond currency always price fixed at more than a barrel of oil, to corrupt their opposition.

Folks like yourselves every so often are also called upon to write not necessarily the most flattering news articles about these folks who of course keep very detailed records of each and every elected and non-elected government official, newspaper reporter and the such who has received their "blackened handed" "means of exchange" which includes the likes of "call girls" as well as cash-latkes and diamonds of course, making the United States Secret Service job of protecting the currency one hell of a poor joke, especially if you are a hard worker being paid in worthless-fictitious and so very blood stained De Beers-Dollars.

And when it is simply cash in an envelope, such monies are referred to on 47<sup>th</sup> Street as "Latkes" and I would know since again I was given the choice of "latkes" the very first day I began working for Codiam Inc. officially in 1980, right after Codiam-DeBeers began to crash the gold market starting January 21<sup>st</sup> 1980 two days prior to virulent anti-Semite President Jimmy Carter's last State of the Union Address.

Ps - you now also understand perfectly well that the story you folks helped spin, that Marc Rich received his Presidential Pardon at the 11<sup>th</sup> hour of Bill "De Beers-Rhodes Scholar-lawyer" Clinton's presidency was because this traitor of both the US and Israel contributed significantly to the Bill Clinton Presidential library, was not only false and grossly misleading, but part of a very significant "cover up" to prevent word reaching the general public about gold shipments orchestrated by the likes of Rich to our tyrants in places like Saudi Arabia, Kuwait and Qatar who were increasingly more nervous about their unruly masses questioning why these stooge governments of the United States, held ransom now for a more than a century by the DAAC, the mafia of mafia, weren't disbursing their hoards of worthless-fictitious DeBeers-Dollars to their masses so as to improve their lives and in the next instant cause a run on the worthless-fictitious De Beers-Dollar, and at the same time less threatened by US Marines having guns pointed at our tyrants heads threatening to kill them each, one by one if they were to dare bring democracy and free market forces to places like the Middle East, Nigeria and Venezuela still sitting atop rich mineral resources becoming increasingly more valuable as the world population thanks to the Roman Catholic Church very much in cahoots with the DAAC and Co. continues to explode.

Just because most US Americans have forgotten the Golden Rule, "Who has the gold makes the rules" does not prevent the rest of the world seeing gold as the best hedge unless of course the world ends up going to war which looks increasingly

unlikely given how very difficult it is for US Army recruiters like Sargent Amanda Lopez to fill the ranks of our so very unfair economic draft; bearing in mind that with each passing moment, the lowest grunt to our next Commander In Chief is fully away of the losses the US military is taking against the most 3<sup>rd</sup> rate military and the first rate military have just as powerful nuclear weapons and China for one has already said they would not hesitate to use theirs even in a preemptive strike against the United States were the United States to choose Taiwan as the next battleground.

No one well informed really wants to go war especially when one sits quietly in the comfort and serenity of one's home even if it is only a corrugated shack and realizes all they need do is go to our "\$ hit list" [sic] to see who exactly benefits from them risking life and limb.

And you would know enough about the law that the law doesn't distinguish between gross negligence and fraud, and we are of course not talking about negligence when we are talking about Diamond Currency that every person with a brain in the space between their ears knows is both produced and laundered on each and every street in the world where there is a diamond store of any sorts and why so few if any ever "go out of business" even when they do so very little business to begin with, and of course the Feds leave them alone as do city councils whose membership are not stupid simply corrupt.

Time to clean house as we now also go about "simplifying" [www.just3ants.com](http://www.just3ants.com)

Thank you again for increasing the circle of those dependent upon my insight and analysis of the important events of the day.

Time for my early evening walk, my left baby finger that got ripped nearly two weeks ago on a barbed wire fence looks like it is finally on the mend.

BTW, can you believe that the Harvest Ranch at the Del Mar Plaza is now charging US\$6.49 for their multi-grain bread which my F-C wife didn't really care for all that much as not only has the quality continued to drop but the seeds mostly on the outside have this most annoying habit of ending up on the kitchen floor.

Do you find it interesting that any mother especially one as worldly and secretive as my mother would write the following

on the Polaroid taken of me, her youngest son, not yet 11 years of age who she first allowed to hold an Israeli made, Special Forces weapon Uzi submachine gun when just 9, and not in the least bit bothered that I would point it at my middle brother who instinctively put up his hands?

Does it become more meaningful when you read in my highly shrewd mother's autobiography titled, Life of Zena, that

*"She was devastated when sisters had to attend different classes of her teachings because some could pass for "Whites" whilst others were labeled "Colored". This was all during her early years as a mother and when her children were born (all four before she was 29) she made up her mind that they must be trained to live outside of the country and sadly the land of their birth."*

Possibly more meaningful when you know that my very English Royal Mater-Mother never cared in the least for South Africa, let alone the politics of the South African Apartheid Regime that came to power soon after she and her immediate family arrived in South Africa in 1947, my most highly secretive maternal grandfather, Al

Ash, hot on the trail of those who had handsomely profited from the Jewish Holocaust of World War II, that was mostly a distraction for the ruling elite to continue using the military might of the warring factions to grab more of the world's precious and limited natural resources beginning with water to control but mostly to grab the non-reproducible gold versus diamonds which began being manufactured in General Electric machines in the mid-1950s and price fixed by GE and their partners De Beers at always more than it cost to produce without the 3 Branches of the US Government even saying "Boo!"

Certainly when you go on to read, the 3<sup>rd</sup> to last paragraph ending,

*"From the earliest days of 1949 she visited Israel two and three times a year writing reports for different publications. Her paternal grandmother had been an early resident of Tel Aviv only returning to England when Zena was born. The Gevissers (she married Bernie Gevisser when she was 19 after only a few months in Durban) owned land in Haifa harbour and Zichron Yscov and she rapidly felt at home in Israel."*

Then you see the photo below taken of my mother Zena standing next to her father Al Ash from the House of Badash in Lorenzo Marques/Maputo, Mozambique, taken in the "earliest days of 1949".

Below is a photo of where they stayed.

The writing on the back clearly showing they started this "vacation" in 1948.

Just like the virulent anti-Semite, anti-free market American Charles Engelhard who began journeying to South Africa in the late 1940s, my "Wandering Jew" maternal family who arrived in 1947

Silver Strand, Capetown.

weren't exactly stupid!

First, are you aware of the following Israeli Military Intelligence report which I will provide "confirmation" to you shortly:

"Immediately following the 2008 Summer Olympics in Beijing China, Al Qaeda will launch a series of attacks on the oil fields of Saudi Arabia, Kuwait, and Qatar which will immediately paralyze the United States' economy."
