The most interesting feedback, aside from the deafening silences, I received following sending this **s email** to Devin Standard was,

We got two choices as I see it.

We either drop a laser-guided missile on Gary's Noble Canyon Stonehenge house or we beat the clock!

Devin, you may not know, is the eldest son of Harvard Law School trained Kenneth Standard Esq., the immediate past president of the New York State Bar Association made up of some 72,000 increasingly edgy Wall Street lawyers-investment bankers such as Clive Berkowitz Esq. one of the perfect examples of the most average of Carmel College, Durban South Africa Lilly White Wheaty Eating school kids rising to the top of the Bell Shaped curve, which is not why I chose very balanced intellectual Devin as the executor of my estate, nor the fact that he is an African-American, nor the fact that he knows rather well a few high ranking folks in the U.S. Navy, heterosexual Rear Admirals and U.S. Navy **SEALs** to boot, who are not quite up there with Israel's elite Special Forces Commandos who number relatively very few, not to mention once more, **Israeli Admiral Ami Ayalon** who for good reason was appointed in 1979 commander of Shayetet-Flotilla 13, **BUT** because Devin, standing by to edit my book, **THE HISTORY OF MONEY CREATION AND ITS FUTURE!** which I hope my wife, Marie Dion Gevisser will write, hasn't YET insisted that I first get him a life insurance policy backed by physical gold.

MDG is expected to arrive shortly at our stone home deep in the Cleveland National Forest and it is my hope that once I shower and shave and tidy up the place just a little since I do keep it rather tidy, I will be able to talk her into writing this so much talked about book prior to us leaving possibly next week for another but less hectic trip to visit with the great peoples of Communist China who could teach us Americans **WHY IT IS** that they are so polite given how they **PERFECTLY UNDERSTAND**, those **LISTENING CAREFULLY** to what I have to say, were it not for foreign western-insurance-influences the "**merit system**" works.

If one were to speak to any coach in any sport, better yet a ski instructor having to make life, death and disability decisions, requiring computations super cray computers only dream about in their worst nightmare, which group of kids are the most enjoyable to teach, I wager my bottom worthless-fictitious-DeBeers-Dollar without exception they would choose oriental kids and very specifically Chinese kids versus as they will tell you, spoiled rotten western kids who for good reason just like their parents were never told, "No!"

Worth mentioning at this moment this photo taken of me and Royal Mater in front of a Mobil gas-petrol station in Chicago in the winter of 1979-1980 as you **NOW, THIS INSTANT** give thought to private-public oil companies like Mobil, Chevron, Exxon, Shell, Occidental Petroleum and the such using public funds, i.e. poor peoples' hard earned and heavily taxed earnings to protect their valuable oil being shipped on the high seas, not to mention such big time welfare recipients the principal beneficiaries of our service people in places like Iraq being torn to shreds by roadside bombs and the such set off by which side exactly?

Again, this oft used photo was taken just prior to me joining **Codiam Inc.** in the spring of **1980** not long after my **DeBeers-Anglo American Cartel** crashed the gold market **KNOWING** that they would be granted an "**extended lease on life**" by the next Republican Administration via their **DAAC** banker **David Rockefeller** making certain that his protégé **Roger W. Robinson**, Chase Manhattan Banks' expert on **USSR economics** "**had the ear**" of the "**Being There**" President **Ronald W. Reagan**.

Let me quickly have you go to increasingly edgy **Edward Jay Epstein's** Chapter 21, **CAVEAT EMPTOR** of **THE DIAMOND INVENTION**, causing **RIGHT NOW** those further up the **DAAC** pyramid untold indigestion, the rather "**knitty gritty**" chapter spelling mostly how "**dumb f*ck**" [sic] is the western world, ending with:

There's going to come a day when all those doctors, lawyers and other fools who bought diamonds over the phone take them out of their strong boxes, or wherever, and try to sell them," one dealer predicted. The principal ingredient in the Diamond boom is expectations that may not be fulfilled.

In 1992, some 20 years after I first shared with senior members of Israel's military intelligence my "**misgivings**" about the **DAAC** who had so "**fooled the world's masses**" into believing they were not benefiting from the **DAAC** South African Apartheid Regime, Ayalon received the rank of admiral and was appointed commander of the Israeli Navy. He retired from active service in 1995. Following Israeli Prime Minister Yitzhak Rabin's assassination in 1995, Ayalon was "parachuted" into the post of head of the Shin Bet - Israel's internal security service. He retired in 2000. [Credit is due to Wikipedia allowing me to "cut and paste".]

I have every reason to believe that former members of Flotilla who were trained under Ayalon's "**supreme command**" **ARE LISTENING**, especially those **NOW** with time on their hands protecting oil tankers as well as cargo vessels such this one which passed by us back in July as we cruised in filthy Hong Kong waters on my pal Neil Gould and his Russian mafia partner Alex's double-decker boat where I was forced when realizing all the damage people like Alex, on the far left, do to the image of China as they go about "**turning off**" legitimate investors so that they and their Mafioso-kind continue to fleece the not-al-to-get-her stupid Chinese who I have been personally advising prior to the Tiananmen Massacre in 1989 for them to "**Beware of the forked-tongue**", not to mention why **IT IS** that Alex would be so intimately knowledgeable about how President Putin "**saw fit**" to use a **Hasidic-Black Hatter** to launder on 47th Street in New York City some \$13-\$14 billion in diamonds for his election campaign, paying Black Hatter and now so generous Laviev, a cool \$1.5 billion in "**kick-backs**".

It is my understanding that the phrase, "**Beware of the forked-tongue**" came from the American Indians whose buffalo herds were decimated not just because gun-totters only got bored when they no longer had a moving target.

Economics, History and Politics is what I teach and I don't need to be told that I could do better a job since everyone knows I have no one to compare myself to.

I am not G-d but I understand **PERFECTLY WELL** what **IT IS** that I must do including exposing everyone I know if we are to have any chance of "**giving peace a better chance**".

Not watching boring TV and only listening occasionally to the radio on the few occasions I drive goes a long way in why I have the most envious sex life which is "rili" [sic] what those reading carefully what I write and getting more than their fair share of the graft-spoils of war care the most about.

It, which includes **GREAT SEX**, contributes **SIGNIFICANTLY** in protecting the space between my ears from turning to a perfect vacuum and since you know a thing or "**tTOo**" [sic] about engineering you would know that brain dead people stay in their vacuum so that they don't burn themselves out.

The light bulb is considered one of the very few great inventions but only when a physicist mentioned to me a few years ago when I was over at the Pacifica restaurant with Dr. John K. Pollard, a "**Poverty of Thought**" stricken alumni of MIT and Cornell University, did the "*light bulb go off*" when told that Pythagoras would not have known there exists the square root of negative one since although Pythagoras was certainly "enlightened", the first mathematician-philosopher to take mysticism and superstition out of the equation, this **Famous Man of Samos** knew nothing about artificial light that of course includes the square root of more negative numbers than minus one.

Following the "**deafening silence**" of someone else I asked to comment on what I sent you last evening I decided to throw in at the last minute all the "**mirror**" stuff and the reaction continues to be **EXTRAORDINARILY ENLIGHTENING** which of course is not in the least bit "**astorishing**" once one realizes the ingenious mind of our designer who wouldn't waste anything let alone His=Her breath in using just as he does the perfect vacuum of Deep Space to let us know there is "sumthing" [sic] on the "**other side**", the Red Shift Effect, measuring light waves in Deep Space and the Doppler Effect measuring sound waves within the non-vacuum of Mother Earth, "**mirror images**" of one another.

I think it is time you and I got together again to discuss a number of things including Mr. **Jeffrey R. Krinsk** "**dropping the ball**" on the "slam-dunk" class action lawsuit against your former employer, **Peerless Systems**, although by that time Mr. **JRK** may have found a better way to "**compensate**" us and the hard working peoples of the world, but since I am not G-d, I won't hold my breath.

As you can only possibly imagine it is not only Jewish brothers and sisters of mine in Israel who are questioning those **IMMEDIATELY** around them more than ever without necessarily having them "**open their mouths**" just watching as I go about exposing **ALL THE WORLD'S FOOLS NAMES, FOOLS FACES IN PUBLIC PLACES**.

Israeli Commanding Officers are not rich, nor are their highly skilled killing machine commandos including those currently operating both “*in enemy lines*” and even less armed deep “*under cover*”, not to mention once again those protecting highly vulnerable oil tankers whose owners are known only to the likes of heavily corrupt and **DAAC** owned **Lords-Lloyds of London**.

Now give thought to those not quite risking life and limb to do nothing more than prop up the worthless-fictitious and so blood stained DeBeers-Dollar such as all the honest very hard working people all over the world including in the Arab world not being handed “*illegally*” \$2 million cash in a suitcase like the Roman Catholic uncle of Adam Tucker, my one Jewish American programmer whose Jewish family **CHOSE** not to “*speak out*” for the simple reason they are **ALL** corrupt greedy bastards.

Now come back to how very quickly it “*surfaced*” that Israel’s Minister of Defense right before Israel “*invaded*” Lebanon, partially to “avenge” the kidnapping of its border soldiers “*caught napping*”, disposed of a “*material*” amount of his public stock portfolio.

Not to further mention that American citizens **WILL** soon be a whole lot more understanding when they get busted for smoking a joint or pulled to the side of the road for a traffic violation even if it is because, if like me caught traveling at less than 5 MPH in a 15 MPH zone but so naughty to have failed miserably to wear a fricken seat belt, now appreciating, better than ever, that the “*belt tightening*” going on at our bloated bureaucracies **SO VERY CRITICAL** in propping up a welfare dependant state, is part of the price one pays when making the conscious decision to “*turn a blind eye to evil*”.

Not to mention repeatedly but ad-nausea, the hypocrisy of “**LEGAL**” American citizens, the greatest beneficiaries and therefore the **BIGGEST CROOKS** of the Normandy Invasion, the military fraud of military frauds that served to place nothing short of a loaded gun at the heads of the 730 dignitaries from 44 countries at the Bretton Woods Conference the following month, July 1944 “*a month that should remain in infamy*” [sic].

Time to fly,

Gg

Gary,

Looks ok to me. How do you ever find time to write all of these?

Regards,
Ron
