Subject: Fiduciary Culpability – De Beers House of Cards

Without taking focus off your De Beers relationship, you understand perfectly well why Al Quaida, after all these years hasn't "executed" the Israeli Military Intelligence report vetted by both the Mossad and the FBI; not even a single "sitting duck" moving oil field; i.e. an oil supertanker has even been hit; nearly 300 on the high seas at any moment in time, for you know as well as Al Quaida that to bite the hand of the House of Saud would really incur the wrath of the United States Government and their "hired guns" who feed on departments such as the US Homeland Security now doing a joint-venture with Hollywood.

The game is up. The crooks are going down.

Each of you blind copied, and we all know who you are, have had ample opportunity to read Hollywood blockbuster author Edward Jay Epstein's The Diamond Invention [<http://www.edwardjayepstein.com/diamond/prologue.htm>], all geared toward leaving hard working, productive peoples throughout the world feeling hopeless, that their government is corrupt, that they cannot in fact trust a single soul, not even family members who could be so easily bought off with your client De Beers' unlimited supply of untraceable, lightweight and never inventoried diamond currency, always price fixed at more than a barrel of oil.

What, however, none of you figured out when first reading this most fascinating non-fiction novel, detailing the devious nature of De Beers, again written by a very well known investigative reporter in 1978, who still writes editorials for the Wall Street Journal, is that the DeBeers-Anglo American Cartel [DAAC] that of course includes J.P Morgan and Co. and all their subsidiaries and affiliates, not to mention the U.S. Federal Reserve, was the deep rooted fear of this mafia of mafia, who felt the need to "wave" their "big stick" by placing in "black and white" their extraordinary "gun-money-power"; such elitists able, after buying off all the legislators worth talking about, to pass all sorts of nonsense but very important distracting laws, then, with what was left of their unlimited supply of untraceable, lightweight and never inventoried by government regulators diamond currency, hire the very best of the Wall Street lawyers to do their bidding.

Let me know if I need to explain to any of you why when someone as "credible" as me uses the two words, "Diamond Currency" all conversation stops.

You are all of course aware of the precedent that was recently set by the US House of Representatives when deciding to open up litigation against OPEC; pointing directly to their culpability and that of the US Justice Department who have both ignored De Beers' anti-trust violations to the extent of doing little but giving De Beers the approval to make cash-slap-on-the-wrist donations to the already bought and paid for US "Justice" system.

Each and every one of you would know that it is today not only me who knows this, and why "to a man-woman", not one of you has the guts to respond in kind.

In due course I will be following up with President George W. Bush with Part X, most likely entitled, "To be...", carbon copying the U.S. Justice Department, CIA, Israeli Military Intelligence and the Mossad; not to mention "servers" will be randomly blind copying as well as carbon copying the world, just as I am doing now.

You will be able to find that communication on the homepage of www.just3ants.com, a "high level" information source that is in the process of being "reworked", making it attractive to parents of 9-year olds still seeking truth and answers to their many questions, that they will not find at school or university, let

alone from their bought and paid for religious clerics as well as their so "godly acting" parents, all caught up in De Beers and Co.'s "easy money, me culture" .

As you all know, even if you haven't taken a single course in economics and/or finance, money is just "one means of exchange", no different to precious minerals such as gold, oil, silver, platinum, uranium, etc etc, and of course the artificially-precious diamond, never to forget bartering.

Moreover, how quickly in our quick this, quick that, just "cut to the chase", all about "me, money" culture, the discombobulated, which of course is not one of you, forget that it is money, which for the past century has been the preferred "means of exchange" by the masses, so brainwashed, unceremoniously deprived of their basic human rights, beginning with the most precious human right, the right to clean drinking water, that in turn leads to the production of healthy foods, and in no time to logical thought processing, beginning with questioning what happens when those printing all those monies set up Trust-Hush-Funds for their offspring and others co-opted-corrupted decide to use such monies to allocate the rich mineral resources belonging to the masses working for slave wages in faraway lands to themselves, knowing that they have Uncle Sam with the Armed Forces of the De Beers and Co. controlled US Government backing them to hilt.

You disgusting pigs.

Is there anything new in what I just said?

Yes, when you wake up and realize that I not only come from the House of Badash who joined forces with the Geviser-Israel Gevisser

family of Lithuania-South Africa, but in 1978 I had demonstrated enough business acumen to have my well-known South African mother, Zena Badash-Ash Gevisser get my uncle David Gevisser, the executor of Mossad assassinated Charles W. Engelhard, the "control person" of the De Beers-Anglo American Cartel, to provide

me just prior to my departure from South Africa on March 16th, 1978, destination Chicago, Illinois, not one, but two, "Letters of Introduction"; one to a former bigwig in the South African timber industry with an office on Ivanhoe Street, La Jolla, California who could easily have believed he was in Timbuktu given how he was suffering from severe dementia; and the second, to group of my uncle Dave and Charles Engelhard's lawyers located on Bush Street, San Francisco.

Not to mention I figured out very quickly after my mother suggested I first visit La Jolla where the gentleman couldn't even remember his own name let alone that of my uncle Dave, that this little, not exactly waste of time, trip was nothing more than a smokescreen, and to have me focus that much more on my next trip to San Francisco which then led to me going to work for Codiam Inc. located on 47th Street.

When you next hear anyone, whether they be corrupt idiots like you and those who choose poorly your company, or a spoiled brat Trust-Hush-Fund college kid whining about this, that and the other, all a distraction from examining the blackened hand monies they are taking to play college student and the such, you will know only to either collapse into a heap of tears, or like me smile from ear to ear, knowing that in all likelihood that individual has already visited just3ants.com and knows it is inevitable that you too will visit it, time and again if you haven't already.

All those currently "playing ostrich" have figured out as well that the monies handed to you beginning with your college education whether used for college tuition, your or your boyfriend-girlfriend's contraceptive device, the 3 or so meals a day, the cost of a cell phone, the motorcar, the scooter, the hair coloring, the not necessarily totally botched cosmetic surgery, etc etc are, while "driving the local economy" taking away precious resources from folks in faraway lands whose only "failure" in life, up until now, has been the fact that they have been so misinformed as well as lacking the big gun.

My very well home-schooled mother, whose paternal grandmother, pogrom orphaned Nechie Badash came from the same tiny village as Ben Gurion, Plonsk, White Russia-Poland, knew the instant I picked up the gun and before this photo was taken of me below in July 1966, at age 9, pointing an Israeli made Uzi submachine gun at my middle brother Melvin who is some 15+ months older than me, I would have lots of questions for our Israeli-Argentinean "guide" Yehudah Matov, beginning with, not why the Uzi was "so heavy" which was my second question, but how would one keep track of when the bullet clip would be empty during reloading, having to figure out in that same split second what to do next when running out of bullets, it not long before, given how I came from a long line of traders, asking about the profitability of having the right intelligence so that one could prevent wars altogether long before the outbreak of war.

And of course the bullet clip containing the 9 mm bullets had been removed first by the Israeli Special Forces commando who had been instructed by this very senior Israeli Special Forces Commanding Officer with extraordinarily close ties David Ben Gurion to do just that; the CO also before handing me the Uzi checking the chamber to make certain the already highly skilled and experienced commando hadn't simply moved the switch from single fire to rapid fire; and you would know that in designing such an awesome weapon that says everything about how Israel "forgives its enemies", absolutely no vengeance whatsoever, the use of 9 mm bullets, that do not penetrate walls so protecting innocent civilians in neighboring rooms, also of course protect other Israeli Special Forces commandos already in those rooms, not ever taking prisoners unless to return them in "no time to speak of" back to their units where they would be not only armed with the truth about such things as to why a so-called ally of the Israel, the United States Government led an arms embargo on the State of Israel during the brutal Israeli War of Independence, but most importantly, become in that instant the best of the best of Israeli Special Forces commandos in future wars.

Not to mention that some 18 months later, in January 1968 and looking out over a minefield

in the Golan Heights in northern Israel where in the 1973 Yom Kippur War Israeli forces were overrun in the initial hours with the Syrians cutting off the genitals of young Israelis and stuffing them in their mouths, some while still alive, what a way to start the fast, I, who you see in the red and white Kibbutz hat, didn't take long to figure out why again my mother who also wrote the words above this Polaroid photo below,

and Yehudah had brought me and my two elder brothers to an uncleared minefield; bearing in mind, as you read on just3ants.com in my mother's memoirs entitled, **Life Story of Zena**, my highly secretive mother who was raised by Nechie Badash, an early resident of Tel-Aviv where the Mossad are headquartered, Nechie only "RETURNING" to England when Zena was born on May 30th, 1929, was the first "civilian" in to the captured territories of the Sinai immediately following the June 1967 6 Day Arab-Israeli War, that besides for the unbelievably quick victory, the Arab armies routed, breaking protocol, their commanding officers calling in "big daddy" i.e. the United States for help, picked up not only by the USS Liberty placed in harms way by Senator John McCain's father, Admiral McCain, whose father was also a US Admiral, the next most significant event was the Israel Defense Force's most brutal "unprovoked" attack on the totally defenseless USS Liberty just looking

for the pretext to use nuclear weapons not on Israel's major enemy Egypt, but Israel herself.

The history books up to now have been written and promoted by the victors who have had the biggest guns and rarely if ever the "moral authority".

When you have truth on your side; i.e. the high moral ground you can win over each and every person seeking truth, and those brainwashed by the "enemy" get not only rather pissed but at the very same time extraordinarily quiet, knowing there will come a time when Israel will have peace with all its neighbors.

Of course for those like the bomb making DuPonts, peace is war, and not lost for a moment on those of us who haven't forgotten that the United States Government in 1948 was "no friend" of the fledgling State of Israel.

You will all remember, including those of you who don't consider yourselves virulent anti-Semites that less than 3 years prior to the official start of the Israel War of Independence, May 14th, 1948, it was the Russian Red Army, not American GIs, who liberated Auschwitz on February 2nd, 1945 when the entire literate world knew of the wholesale murder of 6 million of the best of the best of my Jewish brothers and sisters.

Not to mention the so very public meeting on February 14th, 1945 of King Ibn Saud of the House of Saud, Saudi Arabia with President Roosevelt on board the USS Quincy, right after the atrocity of Yalta; the most inexcusable, the most extraordinary "shot across the bow" of David Ben Gurion based with the rest of the leaders of the Haganah Jewish Underground in Jerusalem, not to push forward with a Jewish Homeland where those fighters who had survived the Holocaust would face the superior and overwhelming forces of the Allied nations who while placing that so fricken bizarre embargo were arming the Arab tyrants, all preparing for one most extraordinary bloodbath which the experts such as Field Marshall Montgomery considered a "foregone conclusion".

Were any of you aware that "sum" [sic] of us Jewish people can do more than play a "good game of rugby".

Did you know that there is reason why Israelis and the Chinese, the Jews of the Orient, set the scholastic levels wherever we go?

Those of us include of course Israelis who have served in the Israeli military who chose to remain in Israel versus most of the rest in search of mostly money who like the rest void of humanity think it smart to venture to the US which they have been led to believe another big lie, is the standard bearer of the Free Enterprise System.

Furthermore, each of you can check with more than my one American mentor, most righteous Gentile Amos Wright, both a US Marine and Navy Officer during World Oil War II who witnessed firsthand orders given that resulted in Jewish Americans and Black African Americans being the first to "hit the beaches"; not to mention Amos also served on the ship housing the Admiral of the Pacific Fleet who once instructed not only Amos and the rest of the officers but the entire crew to go on their hands and knees and pray for a miracle when they found out that the Japanese fleet were headed towards them, knowing that they would be eliminated were it not for an "Act of God".

In the meantime while preparing to receive Part X, click [HERE](#) taking you to one of 3 heavily broadcasted emails I began sending out the day before yesterday.

Pay very careful attention to the following paragraph:

For Christ sake, American Charles Engelhard wore his Nazi Swastika high up on his lapels, the same with his crony Harry Oppenheimer, son of Ernest Oppenheimer who made it his business without De beers having a "standing army" to tell American President Franklin D. Roosevelt to "go to hell" when Roosevelt was FORCED by Ernest Oppenheimer to "GO PUBLIC" and let the whole fricken world know that De Beers was refusing to "play ball" and supply the United States with the industrial diamond stockpile that De BEERS said the

United States needed on US soil, given how De Beers were fricken orchestrating the entire World Oil War II and I.

You all now have the confirmation of me working for your client the De Beers-Anglo American Cartel back in 1980 at their principal price fixing operation on U.S. soil, just prior to the DAAC, the mafia of mafia, the most brutal, the most torturous allocator of the world's resources beginning to crash the gold market which of course they don't control as much today, and it is not only because the Mossad keep a most careful "watch of things".

Equally important, you don't need to check with your professors of law at your respective law schools or for that matter the De Beers heavily infiltrated US Justice Department to know that not just anybody can get a job at Codiam Inc., wouldn't you agree?

<http://www.just3ants.com/emails/debeers/default.shtml>

Should you have the time in your very busy schedules rearranging your other priorities to get your copy of my much anticipated forthcoming communication to President Bush, a draft sent to the White House yesterday afternoon, you can access the other two heavily broadcasted emails I also sent this past Tuesday, the one prior to a Mr. Michael Awerbach by clicking [HERE](#) and one after, to my one American programmer Mr. Adam L. Tucker, by clicking [HERE](#).

A Name From Here, You Can Trust Over There!

Ps – the ad above, which was placed just once in the South African Sunday Times in 1989, after my first trip to China in the spring of 1989, and before heading up the restructuring-work out team of Epilady USA Inc., the women's **shaver** engineered and produced on Kibbutz Hagoshrim, northern Galilee, Israel, was the "work product" of my mother who again was responsible for my uncle Dave Gevisser laying the groundwork for me today being in pivotal position to beat you all at your "funny money-business-personal" games.

Just because you can afford to get your hair, nails and toenails cut by slave wage earners while affording all the other luxuries that come from continuing to "pay homage" to the world's brutal rulers, who like each one of you have no loyalty to country, religion or ethnic group, certainly not to sharing the truth since your loyalty is only to "money", and more specifically those who butter your bread using of course untraceable diamond currency, **AND I WOULD KNOW**, does not mean any of you are intelligent; on the contrary, I will, as G-d/God is my witness, prove in any court of law, any in the world, so long as before a jury of my peers, that you are all, without exception, not simply crooked, which of course comes as no surprise to any of you which is all part of your pride, but worse for your increasingly worse mental state, extraordinarily stupid thinking you would get away with your crimes against humanity.

Voltaire – I may not agree with a word you say, but I will fight to the death your right to say it.
