**Subject:** QUESTION: Adam Tucker

Dear Scott hello – rather than have me email Adam with “corrections” that could get lost in the “translation” let me correct the following in what he wrote.

When I arrived in the US on March 17<sup>th</sup>, 1978, one week shy of my 21<sup>st</sup> birthday, I was “armed” with actually two “Letters of Introduction” signed by my uncle David Gevisser, my father Bernie Gevisser’s first cousin.

Not to mention my father was unaware of both letters that my mother had obtained from my uncle Dave who got the extraordinary cash rich job as executor of Charles Engelhard’s estate only because of my mother’s immediate family who had “laid the groundwork” to eventually “set up” Engelhard and his Anglo South African partner Harry Oppenheimer.

To mention little of Engelhard had been assassinated at age 54 by the Mossad some 7 odd years earlier, buried on March 2<sup>nd</sup> 1971 at St. Mary’s Abby church, Morris Town, New Jersey.

Second, the gold that was converted in to gold “objects de art” and shipped out of South Africa, first mentioned in Chapter 18, THE AMERICAN CONSPIRACY of Hollywood blockbuster author Edward Jay Epstein’s THE DIAMOND INVENTION was just another of many “smokescreens” by the DeBeers-Anglo American Cartel.

Not to mention this “nonsense” of Engelhard shipping the gold to Hong Kong rather than to his Englehard Minerals and Chemicals headquartered in Newark, New Jersey was to let the rest of the “money power” elite around the world know how very arrogant the DAAC felt about their so extraordinary “omnipotent” position that they could place in “black and white” that such valuable “means of exchange” didn’t even make its way to the US who had provided all the military muscle to Englehard and his mafia partners all over the world stealing blind South Africa’s precious minerals that would then be shipped to wherever the DAAC’s elected and non-elected government officials designated they wanted their bribes to be held for “safekeeping”.

Again, the one and most important “letter of introduction” was to my uncle’s and Charles Engelhard’s one set of lawyers located on Bush Street, San Francisco who after meeting with me wasted no time in arranging a “nothing to speak of job” at Codiam Inc. headquartered on 47<sup>th</sup> Street, Manhattan.

It so happens that the main fronting principals of Codiam Inc., Stephen Cohen and Alan Lipworth were relations of my uncle Dave.

Third, Mr. Jeffrey R. Krinsk Esq. is “toying” with Adam, a point I have made repeatedly to Adam who for whatever reason seems to missing this very important point.

In due course I will be following up with Marcia Kramer of CBS and you will be carbon copied.

Given what I know there is really no need to “pussy foot” around with anyone including you who I only assume the best.

At the same time, it should be quite obvious how very quickly you could in fact get up to speed assuming you are different to everyone I know who is corrupt and who subscribe to the notion, “The truth is irrelevant”.

My French Canadian wife has just arrived back at our rented studio cliff house perched atop the cliffs of Del Mar, California having just given her first art class to a group of Ranch Sante Fe senior citizens; Marie Dion Gevisser just mentioning to our one contractor involved in the refurbishment of the cliff house that one of her students is a gentleman who does bird carvings that sell for upwards of US\$20,000 which is currently significantly more than my wife’s oil paintings, but that could change after lunch.

Should you have any questions please do not hesitate to contact me.

Sincerely yours,

Gary S. Gevisser

Hey Scott,

I’m sure by now you have heard that Julia and I are getting a divorce.

I ended up getting into some pretty major financial debt; without getting too into details, Julia was willing to forgive me from hiding the debt from her, but it gave us an opportunity to reevaluate our relationship, since we would be starting from scratch. She wont admit it to herself, but when I was not a successful provider, I was not a good husband, and she lost respect for me. Which I understand to some degree, but that lack of respect was missing from before we got married. I embarrassed her with Malibu Wireless's failure, and it just snowballed.

Any way, at the heart of what I am writing you is also in part where Julia and I had a disconnect. If you remember, the last time I wrote you I was asking about the funding of movies; I asked because of The Diamond Invention, which was also written by Edward J Epstein. I met a man named Gary Gevisser about 7 years ago while doing some consulting work for him. He paid well and seemed harmless, so I listened. He started telling me things about Gray Davis and his relationship with Vivendi Corp. through a

subsidiary called US Filter, and how he had proof of corruption within the Democratic party. Eventually Davis was kicked out and I started listening attentively.

As a South African Jew, Gary grew up in a very affluent family with strong ties to Israel and the Jewish underground starting with his grandmother who grew up in the same village in Poland as David Ben-Gurion, the first Prime Minister of Israel. His mother Zena Gevisser was amongst many things, responsible for introducing people in South Africa to people such as Robert Kennedy. so when Gary arrived in America he came armed with a letter of introduction to give to his uncle who was and is the Executor of the estate for Charles Engelhard of Engelhard Minerals and Chemicals Inc. which he explained was a partner of the De Beers Anglo American Cartel. As a partner Charles Engelhard was able to mine Platinum and gold which he melted down and had shipped out of South Africa in the form of statues among other methods in order to get around custom laws. You wouldn't be surprised to recall that in 1975, all US vehicles were required to have platinum catalytic converters of which Engelhard Minerals and Chemicals Inc. own the monopoly.

De Beers realized early on that diamonds were integral parts of the two MAJOR industries; OIL - can't drill without industrial diamond bits, & WAR - you can't produce precision tooling required for mass production, without diamond blades.

Through this, they have controlled the world's natural resources and along with it, every war by funding both sides and being guaranteed to be in bed with whom ever wins. And if any one ever got a conscience, De Beers would fund the second in command whom with unlimited diamond currency could buy all the weapons needed to over throw the uncooperative government (sound familiar...US).

Our dollar is collapsing right now due to corruption at the highest levels, an example being Bill "Cecil Rhodes Scholar" Clinton, and his selling of our oil interests and while in his 11th hour in office, issuing a pardon to Mark Rich.

Israel indirectly issued a top secret military report stating:

Immediately after the the 2008 Summer Olympics in Beijing China, Al Quaida will launch a series of attacks on the oil fields of Suadi Arabia, Kuwait, and Qatar, which will instantly paralyze the US economy.

No matter who decides to do it, our achilles heel has been exposed.

When Gary Gevisser gave the letter of introduction to his uncle, he was assigned a position with a company called Codium Inc. which was a De Beers representative in the cut diamond industry out of New York. Gary Gevisser was in meetings held between Stephen Cohen of Codium Inc. and Martin Rapaport of the Rapaport Report which is the diamond industry's price setting report for cut diamonds sold in the US. Gary is a first hand witness of price fixing conducted in the US by De Beers which until now could never be indicted because of jurisdiction.

Gary has contacted numerous attorneys, many of which wont touch it because of the risk, An attorney named Jeffrey R Krinsk Esq., whom Gary worked with on a class action suit against Ronald Perelman of Revlon in which Gary was able to prove foul play by reviewing their public accounting.

Jeffrey R Krinsk Esq. has asked that we find a plaintiff which could be argued is everyone, but we are going to video a sale as proof of a plaintiff.

I am writing you to see if you would like to participate in some capacity be it financially or with your time and ability to bring the right people together. We are setting up a blog site for people around the world to post, as well as providing VODcasts of current events, connecting the dots between public stories. Any help in any form would be greatly appreciated.

If our dollar collapses and there are no safety nets, we may see another civil war on our soil.

Below is a copy of an email that I sent to my family this passed Saturday; One of the family members that received this email, also received a brief case in the early 1980's from a South Africa that was worth a considerable amount of money and included a silent South African Business Partner, wanting to launder money profited from the Apartheid Government Regime.

Thank you for your time and consideration,  
Adam

Please read the above links before asking me what or why I am focusing on [just3ants.com](http://just3ants.com) versus anything else. Once read, if you still have questions about why, then I ask that you direct them to me via email so

that we may have an open dialogue. Talk is cheap, put your words in writing and stand by what you have to say.

I am working with Gary Gevisser in an apprenticeship, learning more about business than I ever learned in macro or micro economics or around the dinner table during our many family gatherings.

In December of 2004 when gold was priced \$347/oz, Gary went public in forecasting gold's rise based upon what he was observing. His forecast doesn't mean all that much until you look at Gary's history and the history of gold which for the previous 25 years had been relatively static in comparison to its 28 year high which it has been eclipsing daily.

The Golden Rule, "He who has the gold, makes the rules!", has been around since biblical times, and there is no reason for us to think that we have risen above it.

We are worse than arrogant, and it is time that we realize that we are causing more damage globally by our regime change military machine, than we are helping with us sharing the "American way of life".

Before you say, "The truth is irrelevant" and all that counts is what is happening now; just think if we are such benevolent rulers of OUR free world, then why did we go into Vietnam, Korea, Iran, or Cuba and yet we left the South African Apartheid Regime alone for over 45 years; A 45 year period during which our most racist, most brutal regime slaughtered and repressed tens of millions of blacks which made up some 90% of the population.

The reason that we did nothing should not be a surprise; individual bankers such as JP Morgan and Charles Engelhard through Companies like 'Engelhard Minerals and Chemicals', were busy stealing natural resources from South Africa like platinum which as an example, was passed into law as a required metal in catalytic converters for all US vehicles in 1975, some 4 years after American Charles Engelhard who most people believe was Jewish, was buried in St. Mary's Abby Church, in Morris Town, NJ; this mafia of mafia kingpin's funeral attended by Senator Ted Kennedy, former President Johnson and Vice President Humphrey.

How can any of you not help but feel like hypocrites while watching genocides happen in real time around the world, knowing full well that the world, including American Jews, turned a blind eye to the Holocaust not much more than 50 years ago and then to the even bigger holocaust that took place in South Africa because Jewish people having gotten once again so very comfortable, professed when donning their yamikas and going to their synagogues to ask for forgiveness on Yom Kippur,

"If there was not a Black problem in South Africa there would be a Jewish problem!".

Now let's talk about your pocket books and my pocket book.

Where is all the gold and other precious minerals stolen from South Africa which we "paid for" with our military mite?

We know from Chapter 18, of The Diamond Invention, titled, The American Conspiracy that some of it ended up in Hong Kong and from there where do you think the crooks amongst US had our bribes shipped?

If this is all getting a little too "close to home", what are your thoughts on the following not so Top Secret Israeli Military Report that states emphatically:

**Immediately following the 2008 summer Olympics in China; Al Quaida will launch a series of attacks on the oil fields in Saudi Arabia , Kuwait , and Qatar , which will immediately paralyze the United States economy.**

Remember it is not just what is said but what is not said including how easy it would be to have **OUR Al Quaida** ALREADY sunk a super oil tanker heading north, south, east or west.

On Wednesday, October 24<sup>th</sup>, Gary opened up a “dialogue” with the Israeli embassy in Washington DC, specifically the office of the Israeli Defense Attaché to now have Israel officially explain its once again, ingenious actions that few would argue is one hell of a shot across the bow of the US.

There is not today an intelligence agency in the world who is unaware of what exactly Gary Gevisser is currently doing as well as his very “open book” past, that few could argue is also rather extraordinary, perhaps very significantly more than his mother Zena Gevisser who is today, just like the most senior members of Israeli Military Intelligence, not talking.

The most lethal intelligence gathering institute in the world has put us on notice. And the fact that Al Quaida has not attacked our oil sources in Saudi Arabia , Qatar , Kuwait , or Venezuela , is not exactly a miracle, considering it would mean biting the hand that feeds them through the house of Saud.

No look at the attached photo showing Roosevelt who turned away the SS St. Louis and Ibn Saud on board a US destroyer right after the Yalta Conference that took place two days following the Soviet Red Army liberating Auschwitz on February 2<sup>nd</sup>, 1945 should have chills going up on your spines; bearing also in mind that without DeBeers diamond drilling bits it would make drilling for oil next to impossible. An attack made by anyone on any super tanker let alone an oil field, would paralyze our economy and our military, especially when considering the unbelievably fragile state of the capital and financial markets, all dependant on “good news”.

Just the fact that our Achilles heel has been exposed should let you know that whether it is Al Quaida, Israel, Iran, China, North Korea, or anyone our days as King of the Hill are numbered.

The Bible warns of the repercussions of worshipping false idols, yet we have built a value system around money, and have included people willing to murder over it. The Bible gave us simple rules to follow in order to maintain balance, yet we compromise those rules and that balance when we compromise our values and character for financial gain, self preservation, or the protection of our family. Now to hell with the Bible, since I don't see any of us “making out” like bandits selling anything once the so bought and paid for media feel they have no choice but to comment on the “deafening silence” of Israeli Military Intelligence who understand perfectly well the extraordinary “footprint” Gary has on the Internet.

Go ahead and do a Google search with my name alongside Gary Gevisser. You can all justify your lack of actions to me or others, but how will you justify it to yourself? Money and material things come and go, but our decisions define us.

I know full well, what I am walking away from, and what hands I am "biting" in the process, but it is because I could not live with making any other decision. Not now, knowing what I know.

What I don't know, is when I am going to die, but I do know that I am not going to wait until I have a comfortable bank account before I start questioning how I can leave a positive foot print since with or without me Gary Gevisser's very credible “footprint” will increase. You are being dishonest with yourself if you believe that donating money or volunteering at a temple will make an impact given the state of the HEAVILY CORRUPT INSTITUTIONS beginning with Jewish synagogues, whose rabbis have failed miserably to speak out against DeBeers and their role in diamond cutting and distribution.

Today, upon reading this, you are officially put on notice; ignorance is no longer an excuse for your lack of action. Ignorance will no longer be blissful.

You are all resourceful people that can consciously choose your actions. Now that you have the knowledge you have one of two options; you can support me with your time and money in helping stop De Beers from being the world's allocator of natural resources. Or, you can watch your money in the bank and the value of your properties become worthless as the world as we know it, collapse around us.

If you believe that this is just another down cycle, then I ask you to explain how you think we are going to recover from our declining dollar without collapsing it?

Who but US is going to loan us money by buying our T-Bills? They don't seem like a wise investment at this time.

As of late 2006, China began diversifying their portfolio, and divesting their unprecedented \$1 Trillion US T-Bills away from our currency. Without a gold standard our money is not worth the paper or metals that it is printed on.

One of the great things that I have learned about Judaism is that once a person changes for the better, it is a sin to remind them from where they came.

I have been told by many of you that, "you have to help yourself before you can help others." This statement sounds nice and fun to repeat, but it becomes nonsense once a person's basic needs have been met, which is the case for all of you.

To make things clear, I am not looking to live a life of poverty, but I am also not going to wait until I have "enough", because as you have all proven in one way or another by your lack of actions, "enough" is never enough.

Why should I not be in your faces right now? You have all certainly been in mine, telling me how I should live my life and most quick to judge me for it.

I do not want to talk with anyone that wants to keep secrets and or is afraid to stand by what they say.

Choose your words wisely, and put them in writing. There are no more secrets.
