**Subject:** Tell it the way it is - Chinese become black

Tefo,

First let me congratulate you on your choice of folks to include in the carbon copy section.

I am though, having a hard time figuring out why you thought it important to respond just to this email I sent you on June 19<sup>th</sup> [6/19/2008] besides for you still feeling the important need to maintain a sense of humor, and nothing better than being entertained by the most wicked of people who get to the top simply figuring out quicker than their competitors how to ingratiate themselves with the ruling elite who again laugh themselves silly at all church officials, all of academia, all politicians and most of all at the financially poor who they assume are too stupid to steal legally and those with any intelligence are very quickly singled out either for death or to be co-opted-corrupted in numerous ways.

So here you are a Black single man in South Africa and still very much alive and no doubt you haven't forgotten a number of important things including the decision by the sellout of sellouts Nelson Mandela to keep "under lock and key" when he became the first De Beers Black President of South African the biological weapons programme developed by the South African Apartheid Regime in conjunction with both the CIA and British Intelligence who when instructing former white President

of South Africa De Klerk to hand Mr. Mandela in April 1994 that CD-ROM there was no need to explain that duplicates exist.

Again such a "show of force" by the mafia of mafia De Beers using the world's most brutal military to do their bidding is nothing new, and something you most likely first came across in "black and white" when reading Edward Jay Epstein's The Diamond Invention and nothing more telling when seeing with your own eyes verbiage directly out of US Justice Department files about President elect John F. Kennedy meeting right before being sworn in as President of the United States that bears the title, Commander In Chief of all US Armed Forces, with Anglo South African Harry Oppenheimer on U.S. soil in a most public setting, the Carlyle Hotel located on the upper east end of Manhattan.

Consequently, I assume there is more that you are laughing at right now than this one ruling by the ANC Government given the "insight" you have received from me, a rather credible person, over the years, but starting with just yesterday's heavily broadcasted communiqué [click [HERE](#)] to very competent internet satellite dish installer Thomas Wright working for pathetically incompetent Wildblue who for good reason don't provide any of their employees with corporate email accounts which given all the "experience" my one American programmer Adam L. Tucker has received from me over the past more than 6 years should have been sufficient warning to stay clear; but then again Wildblue don't have much if any competition and so it is really hard to complain.

Moreover, Adam is also very quiet this morning and remember although he is Jewish he is not a Jewish South African nor does he hang out with members of SAJAC, and his quietness is also not because he is keeping up with me posting my "daily diary" up on the homepage of [www.just3ants.com](http://www.just3ants.com), and as you would expect Adam knows more than most beginning with the fact, that both he and I, as well as increasing numbers of others tuned in to my missives continue to broadcast that communiqué as well as the follow up [click [HERE](#)] that also includes Tom's funny response that I had Adam forward on to my eldest brother Neil to share with my mother Zena who of course you remember well.

It doesn't take a rocket scientist to figure out that those "picking up the slack" have known me much longer than both Adam and you who first came across my name not all that much later than Adam when you were researching on the internet former billionaire clients of mine, the Krok brothers of South Africa

Alto Krok      Solly Krok

who had made you an offer few if any of the most privileged white people of South Africa or anywhere in the world for that matter would have turned down and who wouldn't have bothered for a moment to dig to see what problems could develop down the road given how there are so few of us living in the real world who don't know, that the name of the game is to steal enough legally as quickly as possible and then not only be generous but use those ill-gotten gains to get laws passed making it increasingly hopeless for the financially poor of the world who, thanks to the internet, are not quite as ill-informed as they have been in the past.

But again Tefo that is all in the past.

Why haven't you "moved on"?

You have known since the moment the South African Sunday Times refused to publish my INFORMERS WANTED advertisement back on April 7<sup>th</sup>, 2005 [[click HERE](#)] that the "decks have all been stacked" and since then my extraordinary "footprint" on the internet has continued to grow exponentially to the point that right now, this very moment, all those you see in the carbon copied section including Rush Limbaugh know that their hefty pay days ahead are nothing more than "pipe dreams".

Are you aware that neither Israeli Military Intelligence nor the Mossad have changed their decision to vet that most extraordinarily ingenious Israeli Military Intelligence report and yet you send me this dribble?

Just look at the extraordinary deafening silence of MIT Professor Noam Chomsky who knows today that people such as yourself whose parents protested in the 1976 South African Soweto Riots know a whole lot more about how the "real world" works than most if not all the current "gifted" students of MIT as well as much older alumni such as Dr. John K. Pollard Jr. who prides himself in believing that you are dumber and more corrupt than his two Mexican-American gang-banger children who break into containers at the ship docks here in San Diego and take Ferraris and Lamborghinis on "joy rides".

Then again we are "moving on" but of course we cannot forget how very quickly Dr. JKP also an alumni of Cornell University, the fat disease spreading institution here in the US that owns so much valuable land on the border of the United States and Canada, decided to bail out of jail his grandson Eddie Pollard once I began communicating via email with Eddie who Dr. JKP had let fester in jail in downtown San Diego and planned to leave him there to rot forever given Dr. JKP Jr.'s "instruction" to all his heavily co-dependent many children and grandchildren,

"If you need a helping hand look no further than the end of your arm."

Dr. JKP is not alone in understanding today more than ever that it is he and the generation he fathered who are the biggest welfare recipients in the history of the world and of course he and the rest of the succulents and the worst of course is still The IT, still offer no apology given how they take great pride in their accomplishments beginning with having been born first to white folk and second in the country with the biggest gun.

So tell me honestly Tefo what is really going on in your head?

Kgotso-Peace!

Gary

Ps – Can you think of who better to give one's country away to apart from the Chinese? Can you share with me your list of people besides for me standing up for your rights in South Africa? What exactly are you afraid of at this late hour in the game, losing your life which is less likely than it was a moment ago, and besides don't forget the most brutal military in the entire world, the Israeli Defense Forces

have yet to even admonish me for telling it exactly the way it is.

**Subject:** Re: FW: Chinese become black

Am still laughing at this ruling.

We have a pathetic incompetent government in this country.

During apartheid they were "honorary" whites, after apartheid they are "honorary" blacks.

Laughable how we are "giving away" our country.

## S Africa Chinese 'become black'

**The High Court in South Africa has ruled that Chinese South Africans are to be reclassified as black people.**

It made the order so that ethnic Chinese can benefit from government policies aimed at ending white domination in the private sector.

The Chinese Association of South Africa took the government to court, saying its members had been discriminated against.

An estimated 200,000 ethnic Chinese live in South Africa.

The association said their members often failed to qualify for business contracts and job promotions because they were regarded as whites.

The association said Chinese South Africans had faced widespread discrimination during the years of apartheid when they had been classified as people of mixed race.

The BBC's Mpho Lakaje in Johannesburg says the Broad-Based Economic Empowerment and the Employment Equity Acts were designed to eradicate the legacy of apartheid which left many black people impoverished.

The laws give people classed as blacks, Indians and coloureds (mixed-race) employment and other economic benefits over other racial groups. The Black Economic Employment concept was initiated by the governing ANC to help previously disadvantaged individuals - to start their own businesses or become part of existing companies - thus redressing the country's historic inequalities.

### **Whites still on top**

Our correspondent says the ruling provides clarity for corporations in South Africa on the rights of their Chinese staff - who were declared "coloured" under apartheid but are generally regarded as white today.

An example cited in court papers includes an oil company that disqualified Chinese citizens from getting a slice of its biggest empowerment transaction to date.

The company says the group is not catered for in the Black Economic Empowerment codes.

Another example includes a Chinese national who was refused an opportunity to buy shares from the Johannesburg Stock Exchange two years ago.

None of the three government departments cited as respondents in the court case opposed the application.

A study released last month revealed that white South Africans still earn around 450% more than their black counterparts, 14 years after the end of apartheid.
