shot across the bow - What was Amos Wrights military rank when he retired?

I assume you picked up this "*figment of your imagination*" when last visiting the
toilet seated, since it would be preposterous for me to suggest that you, somebody
important – a fly just landed on the core of an apple I just finished eating –would
bother reading not simply word-for-word the 5100 word email I sent you that you
can read now for the 5th time, and this time start out where you see the words,
"figment of your imagination" by clicking [HERE](#).

Now of course you are most probably right that "nobody from the FBI wants to hear
from you" but you would agree then by visiting with soon to be homeless Adam L.
Tucker, unless he starts selling t-shirts, the FBI were trying to send me a possible
message; bearing in mind you would agree that while I don't have voice
conferencing here at our cliff house perched atop the bluffs of Del Mar, not exactly
the most inexpensive real estate in the world, I could have given FBI Special Agent
Curran Thomerson Adam L. Tucker's telephone number that would have saved Mr.
Thomerson a trip in his automobile.

Now do you think I should start out asking FBI Agent Thomerson, just to "break the
ice", when I call that you are smart enough to figure out that if the FBI were able to
obtain Adam L. Tucker's home address then they could also have figured out how to
reach him by his cell phone number USA - 1-858-442-2858, rather than bothering
getting in their car, wasting taxpayers hard earned monies on gas as well as wear
and tear on the vehicle, and then there is insurance etc etc, and then knowing most
of all to leave a business card, "Adam, please call".

Subject: FBI Officially Investigating Israeli Military Intelligence Report

Federal Bureau of Investigation

CURRAN THOMERSON
Special Agent

San Diego Field Office
9797 Aero Dr.
San Diego, CA 92123

(858) 565-1255

760-642-3195

Adm,

PLEASE CALL

On Monday April 28th, 2008 I came home to find the above business card from FBI Special Agent Curran Thomerson and as requested, I called Special Agent Thomerson immediately, and left him a voice message.

On Tuesday April 29th, 2008 at 3:38pm PST I received a call from Special Agent Thomerson, the unofficial transcript of that conversation available on just3ants.com (<http://www.just3ants.com/imireport/FBI/default.shtml>).

Special Agent Thomerson's concerns were with regard to an Israeli Military Intelligence Report which began being exclusively broadcasted by Gary S. Gevisser, a Jewish South African with Israeli Special Forces training and strong familial ties with the Jewish Underground, now living in Del Mar, California.

The Israeli Military Intelligence Report reads as follows:

Immediately following the 2008 Summer Olympics in Beijing China, Al Qaeda will launch a series of attacks on the oil fields of Saudi Arabia, Kuwait, and Qatar which will immediately paralyze the United States' economy.

The report was originally shared with the FBI back in August of 2007, but did not get official attention until mid January 2008 when I began posting the Israeli Military Intelligence Report onto yahoo message boards, in particular a Chevron message board with visitors that forwarded the information onto the FBI.

This information has been vetted with The Israeli Embassy in Washington DC, as well as Mossad and has not been refuted. The correspondence with the US Israeli Embassy Defense Attache is also available on just3ants.com (<http://www.just3ants.com/emails/israeliembassy/default.shtml>). Note that the final email sent by Gary S. Gevisser was never "officially" received by the Israeli Embassy Defense Attache, claiming that they had email problems despite Mr. Gevisser resending the email multiple times.

As the Summer Olympics approach, the implication of the Israeli Military Intelligence Report becomes that much more relevant.

The report begging multiple questions, but first and foremost, why hasn't Al Qaeda already attacked the oil fields since it is so obviously the US' Achilles heal? And the next question why does China featured so prominently?

If you would like to discuss this further with either myself or Gary S. Gevisser, please let me know.

BTW were you aware that Israeli Military Intelligence have come a long way since the very early 1980s when tapping into the undersea telephone cables coming out of Beirut, Lebanon, listening in to each and every phone call made by people such as Yasser Arafat, and when leaving a tennis ball size bullet hole in the space between the ears of those speaking on the phone to their friends here in the United States, the not exactly small bullet fired from well over a mile away, in leaving the most indelible impression, voided the need for Israeli Special Forces commandos to print up business cards.

Did you know that most people who work for the FBI are aware of Moore's Law, technology doubling every 18 months, so that even if their technology was light years behind Israeli technology some 3 decades ago, most FBI know about dialing 411.

Have you considered a job with the FBI?

While I charge the battery of the hand held telephone here at the cliff house - just lowered the shade to stop the glare caused by the sun bouncing off the most awesome Pacific Ocean directly in front - so that I and Mr. Thomerson don't have to hear that so annoying beeping noise, could you check what your local Kinkos is charging for business cards; and if you have the time to also doodle around with other business cards ideas for just3ants.com; of course I assume you have "call waiting" which again we don't have on the landline here, which will allow for you to take the call when FBI Special Agent Curran Thomerson and I call.

Can you give me your last name followed by your first name.

I am sure you don't but why would it matter. My phone only works on real people not pretend people. Nobody from the FBI or any other organization (except perhaps the Society for Mental Health) wants to hear from you. You mail long winded, incoherent and insane messages to people who don't you don't know; do you think they want to speak on the phone with you? Why don't you call the FBI agent and have him conference me in, I am sure he has that capability. Oh wait, he probably is a figment of your imagination. You can see conspiracies and tell everyone what's really going on in the world but you can't make a conference call? Please get some medical help, I am sure your family (and all of the people you email) will really appreciate it.
